RISK FACTORS

Investing in shares of our Common Stock involves risk. Please see the risk factors described below and those described in our Annual Report on Form 10-K for the fiscal year ended June 30, 2013, which are incorporated by reference into this prospectus supplement and the accompanying prospectus. You should consider carefully these risk factors together with all of the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus before you decide to purchase shares of our Common Stock. These risks and uncertainties are not the only ones facing us, and there may be additional matters that we are unaware of or that we currently consider immaterial. Any of these risks and uncertainties could adversely affect our business, financial condition, results of operations, liquidity or prospects and, thus, the value of an investment in shares of our Common Stock.

Risks Relating to Our Common Stock and this Offering

The price of our Common Stock may fluctuate and you could lose all or a significant part of your investment.

Volatility in the market price of our Common Stock may prevent you from being able to sell your shares at or above the price you paid. The market price of our Common Stock may also be influenced by many factors, some of which are beyond our control, including:

- announcements by us or our competitors of significant contracts, acquisitions, strategic partnerships, joint ventures or capital commitments;
- variations in quarterly operating results;
- general economic conditions;
- war, terrorist acts and epidemic disease;
- future sales of our Common Stock or securities linked to our Common Stock;
- investor perceptions of us and our industry; and
- the failure of securities analysts to cover our Common Stock, or to the extent covered, changes in financial estimates by analysts or a downgrade of our stock or sector by analysts.

In addition, the stock market in general has experienced extreme price and volume fluctuations that may be unrelated or disproportionate to the operating performance of companies like us. These broad market and industry factors may materially reduce the market price of our Common Stock, regardless of our operating performance.

Future sales of Common Stock by our existing or future stockholders may cause our stock price to fall.

The market price of our Common Stock could decline as a result of sales by our existing and future stockholders, or the perception that such sales could occur, which might also make it more difficult for us to sell equity securities at a time and price that we deem appropriate.

Our share price could decline as a result of this offering or if a large number of shares of our Common Stock or equity-related securities are sold in the future.

Sales of a substantial number of shares of our Common Stock could depress the market price of our Common Stock and impair our ability to raise capital through the sale of additional equity securities. This offering and any such future sales or issuances could dilute the ownership interests of stockholders, and we cannot predict the effect that this offering or future sales or issuances of our Common Stock or other equity-related securities would have on the market price of our Common Stock nor can we predict our future needs to fund our operations or balance sheet with future equity issuances.

UNDERWRITING

Subject to the terms and conditions set forth in the underwriting agreement, dated as of September 3, 2013 by and among us, the Selling Shareholders and the Underwriter, the Selling Shareholders have agreed to sell to the Underwriter, and the Underwriter has agreed to purchase from the Selling Shareholders, the shares of Common Stock shown opposite its name below:

<u>Underwriter</u>	<u>Number of Shares</u>
Jefferies LLC	3,650,000
Total	3,650,000

The underwriting agreement provides that the obligations of the Underwriter are subject to certain conditions precedent such as the receipt by the Underwriter of officers' certificates and legal opinions and approval of certain legal matters by its counsel. The underwriting agreement provides that the Underwriter will purchase all of the shares of Common Stock, excluding the shares of Common Stock covered by the Underwriter Option, if any of them are purchased. We and the Selling Shareholders have agreed to indemnify the Underwriter and certain of its controlling persons against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriter may be required to make in respect of those liabilities. We have also agreed to reimburse the Underwriter for certain fees and expenses incurred in connection with determining its compliance with the rules and regulations of related to the Financial Regulatory Authority.

The Underwriter proposes to offer the shares of Common Stock from time to time for sale in one or more transactions on The NASDAQ Global Select Market, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by them and subject to its right to reject any order in whole or in part. The Underwriter may effect such transactions by selling shares of Common Stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the Underwriter and/or purchasers of shares of Common Stock for whom it may act as agents or to whom it may sell as principal. In connection with the sale of the shares of Common Stock offered hereby, the underwriter may be deemed to have received compensation in the form of underwriting discounts.

Listing

Our Common Stock is listed on The NASDAQ Global Select Market under the trading symbol "HAIN".

Option to Purchase Additional Shares

The Selling Shareholders have granted to the Underwriter an Underwriter Option, exercisable for 30 days from the date of this prospectus supplement, to purchase, from time to time, in whole or in part, up to an aggregate of 547,500 shares of Common Stock from the Selling Shareholders at the offering price set forth on the cover page of this prospectus supplement. If the Underwriter exercises this option, the Underwriter will be obligated, subject to specified conditions, to purchase a number of additional shares.

Stabilization

The Underwriter has advised us that it, pursuant to Regulation M under the Securities Exchange Act of 1934, as amended, may engage in short sale transactions, stabilizing transactions, syndicate covering transactions or the imposition of penalty bids in connection with this offering. These activities may have the effect of stabilizing or maintaining the market price of the Common Stock at a level above that which might otherwise prevail in the open market. Establishing short sales positions may involve either "covered" short sales or "naked" short sales.

“Covered” short sales are sales made in an amount not greater than the Underwriter’s Option to purchase additional shares of our Common Stock in this offering. The Underwriter may close out any covered short position by either exercising its option to purchase additional shares of our Common Stock or purchasing shares of our Common Stock in the open market. In determining the source of shares to close out the covered short position, the Underwriter will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which it may purchase shares through the option to purchase additional shares of Common Stock.

“Naked” short sales are sales in excess of the option to purchase additional shares of our Common Stock. The Underwriter must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the Underwriter is concerned that there may be downward pressure on the price of the shares of our Common Stock in the open market after pricing that could adversely affect investors who purchase in this offering.

A stabilizing bid is a bid for the purchase of shares of Common Stock on behalf of the Underwriter for the purpose of fixing or maintaining the price of the Common Stock. A syndicate covering transaction is the bid for or the purchase of shares of Common Stock on behalf of the Underwriter to reduce a short position incurred by the Underwriter in connection with the offering. Similar to other purchase transactions, the Underwriter’s purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our Common Stock or preventing or retarding a decline in the market price of our Common Stock. As a result, the price of our Common Stock may be higher than the price that might otherwise exist in the open market. A penalty bid is an arrangement permitting the Underwriter to reclaim the selling concession otherwise accruing to a syndicate member in connection with the offering if the Common Stock originally sold by such syndicate member are purchased in a syndicate covering transaction and therefore have not been effectively placed by such syndicate member.

Neither we, the Selling Shareholders nor the Underwriter make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our Common Stock. The Underwriter is not obligated to engage in these activities and, if commenced, any of the activities may be discontinued at any time.

The Underwriter may also engage in passive market making transactions in our Common Stock on The NASDAQ Global Select Market in accordance with Rule 103 of Regulation M during a period before the commencement of offers or sales of shares of our Common Stock in this offering and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker’s bid, that bid must then be lowered when specified purchase limits are exceeded.

No Sales of Similar Securities

We have agreed, subject to specified exceptions, not to directly or indirectly:

- sell, offer to sell, contract to sell or lend, or otherwise dispose of any shares of Common Stock, options or warrants to acquire shares of Common Stock, or securities exchangeable or exercisable for or convertible into shares of Common Stock, or
- file any Registration Statement under the Securities Act in respect of any of the foregoing, or
- publicly announce an intention to do any of the foregoing for a period of 30 days after the date of this prospectus without the prior written consent of the Underwriter.

This restriction terminates after the close of trading of the Common Stock on and including the 30th day after the date of this prospectus. However, subject to certain exceptions, in the event that either:

- during the last 17 days of the 30-day restricted period, we issue an earnings release or material news or a material event relating to us occurs, or
- prior to the expiration of the 30-day restricted period, we announce that we will release earnings results during the 16-day period beginning on the last day of the 30-day restricted period,

then in either case the expiration of the 30-day restricted period will be extended until the expiration of the 18-day period beginning on the date of the issuance of an earnings release or the occurrence of the material news or event, as applicable, unless the Underwriter waives, in writing, such an extension.

The Underwriter may, in its sole discretion and at any time or from time to time before the termination of the 30-day period release all or any portion of the securities subject to lock-up agreements.

Electronic Distribution

A prospectus supplement in electronic format may be made available by e-mail or on the web sites or through online services maintained by the Underwriter or its affiliates. In those cases, prospective investors may view offering terms online and may be allowed to place orders online. The Underwriter may agree with us to allocate a specific number of shares of Common Stock for sale to online brokerage account holders. Any such allocation for online distributions will be made by the Underwriter on the same basis as other allocations. Other than the prospectus supplement in electronic format, the information on the Underwriter's web sites and any information contained in any other web site maintained by the Underwriter is not part of this prospectus supplement, has not been approved and/or endorsed by us or the Underwriter and should not be relied upon by investors.

Other Activities and Relationships

The Underwriter and certain of its affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The Underwriter and certain of its affiliates have, from time to time, performed, and may in the future perform, various commercial and investment banking and financial advisory services for the Selling Shareholders, us and our and the Selling Shareholders' affiliates, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the Underwriter and certain of its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments issued by us and our affiliates. If the Underwriter or their respective affiliates have a lending relationship with us, they routinely hedge their credit exposure to us consistent with their customary risk management policies. The Underwriter and their respective affiliates may hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the Common Stock offered hereby. Any such short positions could adversely affect future trading prices of the Common Stock offered hereby. The Underwriter and certain of their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

We will pay all expenses incident to the filing of this registration statement. RETROACTIVE PRESENTATION FOR CHANGE IN ACCOUNTING PRINCIPLE

The following is presented to reflect the retrospective application of a new accounting pronouncement with respect to the financial information contained in our Annual Report on Form 10-K for the fiscal year ended June 30, 2012. Effective July 1, 2012, we adopted Accounting Standards Update No. 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income*, as amended by Accounting Standards Update No. 2011-12, *Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income*. These updates require that the components of other comprehensive income be presented in one of two formats: either (i) together with net income in a continuous statement of comprehensive income or (ii) in a second statement of comprehensive income to immediately follow the income statement. These updates do not, however, change the items that must be reported in other comprehensive income or the determination of net income. The new guidance is to be applied retrospectively. The adoption only impacted the presentation of our consolidated financial statements.

The following selected financial information revises historical information to illustrate the new presentation required by this pronouncement for the periods presented. This data should be read in conjunction with our audited consolidated financial statements and the accompanying notes for the fiscal year ended June 30, 2012 as included in our Annual Report on Form 10-K, which is incorporated by reference in the prospectus.
