## Forward-Looking Statements

This Quarterly Report on Form 10-Q for the quarter ended March 31, 2026 (the “Form 10-Q”) contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements involve risks, uncertainties and assumptions. If the risks or uncertainties ever materialize or the assumptions prove incorrect, the results of The Hain Celestial Group, Inc. (collectively with its subsidiaries, the “Company,” “Hain Celestial,” “we,” “us” or “our”) may differ materially from those expressed or implied by such forward-looking statements. The words “believe,” “expect,” “anticipate,” “may,” “should,” “plan,” “intend,” “potential,” “will” and similar expressions are intended to identify such forward-looking statements. Forward-looking statements include, among other things: our beliefs or expectations relating to our future performance, results of operations and financial condition; our strategic initiatives and business strategy; our supply chain, including the impact of tariffs and the availability and pricing of raw materials; our brand portfolio; pricing actions and product performance; inflation rates; and current or future macroeconomic trends.

Risks and uncertainties that may cause actual results to differ materially from forward-looking statements include: challenges and uncertainty resulting from the impact of competition; changes to consumer preferences; our ability to execute our business strategy; our ability to realize the benefits of the North American Snacks business disposition; compliance with our credit agreement and our ability to refinance, retire and/or extend the maturity of the Company’s existing debt; our ability to manage our supply chain effectively; input cost inflation, including as a result of tariffs; reliance on independent contract manufacturers; disruption of operations at our manufacturing facilities; customer concentration; reliance on independent distributors; risks associated with operating internationally; risks associated with outsourcing arrangements; risks associated with geopolitical conflicts or events; our reliance on independent certification for a number of our products; our ability to attract and retain highly skilled people; risks related to tax matters; foreign currency exchange risk; general economic conditions; impairments in the carrying value of goodwill or other intangible assets; the reputation of our company and our brands; our ability to use and protect trademarks; cybersecurity incidents; disruptions to information technology systems; pending and future litigation, including litigation relating to Earth’s Best® baby food products; potential liability if our products cause illness or physical harm; the highly regulated environment in which we operate; our ability to manage our financial reporting and internal control systems and processes; compliance with data privacy laws; the adequacy of our insurance coverage; climate impacts; liabilities, claims or regulatory change with respect to environmental matters; and other risks and matters described in our most recent Annual Report on Form 10-K, this Form 10-Q and other reports that we file in the future.

We undertake no obligation to update forward-looking statements to reflect actual results or changes in assumptions or circumstances, except as required by applicable law.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

(Amounts in thousands, except par values and per share data)

**1. BUSINESS**

The Hain Celestial Group, Inc., a Delaware corporation (collectively with its subsidiaries, the “Company,” “Hain Celestial,” “we,” “us” or “our”), was founded in 1993. Hain Celestial is a leading global health and wellness company whose purpose is to inspire healthier living for people, communities and the planet through better-for-you brands. For more than 30 years, Hain Celestial has intentionally focused on delivering nutrition and well-being that positively impacts today and tomorrow. Headquartered in Hoboken, N.J., Hain Celestial’s products across beverages, yogurt, baby/kids and meal preparation are marketed and sold in over 70 countries around the world. The Company operates under two reportable segments: North America and International.

The Company’s leading brands include Celestial Seasonings® teas, The Greek Gods® yogurt, Earth’s Best® Organic and Ella’s Kitchen® baby and kids foods, Joya® and Natumi® plant-based beverages, Hartley’s® jelly, as well as Cully & Sully®, Yorkshire Provender®, and New Covent Garden® soups, among others.

*Strategic Review*

We are focused on five actions to win in the marketplace and drive growth: aggressively streamlining our portfolio, accelerating brand renovation and innovation, implementing price increases along with broader revenue growth management, driving productivity and working capital efficiency and enhancing our digital capabilities, inclusive of ecommerce.

During the fourth quarter of fiscal year 2025, we announced that our Board of Directors was conducting a comprehensive review of the Company’s portfolio with the assistance of our independent financial advisor.

As part of this review, on February 27, 2026, the Company completed the sale (the “Transaction”) of its North American Snacks business, including Garden Veggie Snacks™, Terra® chips and Garden of Eatin’® snacks as well as certain private label products (the “North American Snacks Business”) and received \$111,200 in cash, reflecting the total purchase price of \$115,000 less the holdback of an estimate for a customary inventory adjustment, which is subject to finalization following the closing. The Company used the net proceeds of \$101,100 from the Transaction to pay down debt. The Transaction represents an important first step in the Company’s broader strategic review, as it reduced leverage while enabling the Company to focus on a more concentrated portfolio of core assets to drive growth.

**2. BASIS OF PRESENTATION**

The Company’s unaudited consolidated financial statements include the accounts of the Company and its wholly-owned and majority-owned subsidiaries. Intercompany accounts and transactions have been eliminated in consolidation. Investments in affiliated companies in which the Company exerts significant influence, but which it does not control, are accounted for under the equity method of accounting. As such, consolidated net loss includes the Company’s equity in the current earnings or losses of such companies.

The Company’s unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. GAAP and should be read in conjunction with the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2025 (the “Form 10-K”). The amounts as of and for the periods ended June 30, 2025 are derived from the Company’s audited annual financial statements. The unaudited consolidated financial statements reflect all normal recurring adjustments which, in management’s opinion, are necessary for a fair presentation for interim periods. Operating results for the three and nine months ended March 31, 2026 are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2026. Please refer to the Notes to the Consolidated Financial Statements as of June 30, 2025 and for the fiscal year then ended included in the Form 10-K for information not included in these condensed notes.

All dollar amounts in the unaudited consolidated financial statements, notes and tables have been rounded to the nearest thousands, except par values and per share amounts, unless otherwise indicated.

***Going Concern and Management's Plan***

As of March 31, 2026, the Company had \$549,825 of debt obligations maturing on December 22, 2026, consisting of \$401,000 of loans outstanding under the Revolver and \$148,825 of Term Loans (each as defined in Note 10, *Debt and Borrowings*). As of March 31, 2026, the Company had cash of \$44,311 and available liquidity of \$195,901, subject to compliance with financial covenants, and the Company was in compliance with all associated covenants under its Credit Agreement (see Note 10, *Debt and Borrowings*). In addition, on January 2, 2026, the Company received \$25,900 of proceeds from an insurance claim (see Note 18, *Segment Information*), which it used to repay loans outstanding under the Revolver, further reducing the Company's future debt obligations.

As discussed above, the Company announced that its Board of Directors commenced a strategic review of the Company's business and capital structure, in part to evaluate options to improve liquidity and reduce leverage. As part of this review, on February 27, 2026, the Company completed the Transaction to sell its North American Snacks Business and received net proceeds of \$101,100, which were used to repay a portion of the Term Loans.

The Company and the Board of Directors remain focused on executing the next phases of the strategic review and taking decisive actions to strengthen the Company's financial flexibility, improve performance and address the upcoming debt maturity under the Credit Agreement. These actions include the pursuit of further asset sales to refine the Company's operating model with a focus on categories and platforms in key markets. In addition, management is executing targeted inventory and other working capital optimization initiatives designed to improve the Company's cash conversion and enhance liquidity. The Company also continues to have active engagement with its lenders while it evaluates potential strategic transactions.

The Company believes that the successful execution of these plans will enable the Company to refinance and/or retire the existing debt prior to its maturity or extend the maturity date under the Credit Agreement. However, Accounting Standards Codification ("ASC") 205-40, "Presentation of Financial Statements - Going Concern" requires that management not conclude that such an outcome is "probable" if, among other factors, the outcome is not within the control of the Company. Accordingly, there is substantial doubt about the Company's ability to continue as a going concern for at least one year following the date of issuance of these financial statements due to the uncertainty regarding the Company's ability to refinance or repay its debt due on December 22, 2026 because no such refinancing, retirement or extension has occurred prior to the issuance of the financial statements. The Company's ability to continue as a going concern remains subject to successful execution of its strategic plan and securing additional financing, if needed. If the Company is unable to execute its plans to generate sufficient liquidity, it may not have adequate resources to repay or refinance its debt, which would have a material adverse effect on the Company's financial position and results of operations.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern, and no adjustments have been made to the financial statements to reflect the possibility of the Company's inability to meet its debt obligations or continue as a going concern.

### ***Significant Accounting Policies***

The Company's significant accounting policies are described in Note 2, *Summary of Significant Accounting Policies and Practices*, in the Notes to the Consolidated Financial Statements in the Form 10-K. Included herein are certain updates to those policies.

### ***Transfer of Financial Assets***

The Company accounts for transfers of financial assets, such as non-recourse accounts receivable financing arrangements, when the Company has surrendered control over the related assets. Determining whether control has transferred requires an evaluation of relevant legal considerations, an assessment of the nature and extent of the Company's continuing involvement with the assets transferred and any other relevant considerations. The Company has non-recourse financing arrangements in which eligible receivables are sold to third-party buyers in exchange for cash. The Company transferred accounts receivable in their entirety to the buyers and satisfied all the conditions to report the transfer of financial assets in their entirety as a sale. The principal amount of receivables sold under these arrangements was \$205,262 and \$216,002 during the nine months ended March 31, 2026 and 2025, respectively. The incremental cost of financing receivables under these arrangements is included in selling, general and administrative expenses on the Company's consolidated statements of operations. The proceeds from the sale of receivables are included in cash provided by operating activities on the consolidated statements of cash flows.

### ***Recently Issued Accounting Pronouncements Not Yet Adopted***

In December 2025, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2025-12 "Codification Improvements" to address suggestions received from stakeholders on the ASC and to make other incremental improvements to U.S. GAAP. The update represents changes that clarify, correct errors in or make other minor improvements to a broad range of topics that is intended to make it easier to understand and apply, including ASC 260, "Earnings Per Share", ASC 325, "Investments – Other", and ASC 958, "Not-for-Profit Entities". The guidance is effective for fiscal years beginning after December 15, 2026, including interim periods within those fiscal years, with early adoption permitted. Entities are required to apply the amendments to ASC 260 retrospectively. All other amendments may be applied prospectively or retrospectively. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

In December 2025, the FASB issued ASU 2025-11, "Interim Reporting (Topic 270): Narrow-Scope Improvements" ("ASU 2025-11"). ASU 2025-11 clarifies and improves existing interim reporting guidance by consolidating disclosure requirements within Topic 270 and introducing a disclosure principle requiring entities to disclose events and changes occurring after the most recent annual reporting period that are expected to have a material effect on the entity's financial condition or results of operations. The ASU does not introduce significant changes to recognition or measurement guidance. The amendments are effective for interim reporting periods within annual reporting periods beginning after December 15, 2027, with early adoption permitted. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

On November 25, 2025, the FASB issued ASU 2025-09, "Derivatives and Hedging (Topic 815): Hedge Accounting Improvements" ("ASU 2025-09"). ASU 2025-09 clarifies the application of previous hedge accounting guidance and addresses emerging issues identified by stakeholders, including those related to reference rate reform. The main amendments relate to cash flow hedging, but some of the amendments affect certain fair value and net investment hedges. The amendments are effective for fiscal years beginning after December 15, 2026, and interim reporting periods, with early adoption permitted. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

In September 2025, the FASB issued ASU 2025-07 "Derivatives and Hedging and Revenue from Contracts with Customers, Derivatives and Hedging (Topic 815) and Revenue from Contracts with Customers (Topic 606)". The guidance refines the scope of Topic 815 to clarify which contracts are subject to derivative accounting. The guidance also provides clarification under Topic 606 for share-based payments from a customer in a revenue contract. The amendments are effective for fiscal years beginning after December 15, 2026, and interim reporting periods, with early adoption permitted. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

In September 2025, the FASB issued ASU 2025-06, “Intangibles — Goodwill and Other — Internal-Use Software (Subtopic 350-40) — Targeted Improvements to the Accounting for Internal-Use Software”, which modernizes the guidance in ASC 350-40, Intangibles — Goodwill and Other — Internal-Use Software, to better align with current software development practices, including agile methodologies. The amendments are effective for fiscal years beginning after December 15, 2027 and interim reporting periods within those annual reporting periods. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

In July 2025, the FASB issued ASU 2025-05, “Financial Instruments — Credit Losses (Topic 326) — Measurement of Credit Losses for Accounts Receivable and Contract Assets”, which will provide a practical expedient in developing reasonable and supportable forecasts as part of estimating expected credit losses: all entities may elect a practical expedient that assumes that current conditions as of the balance sheet date do not change for the remaining life of the asset. The amendments are effective for fiscal years beginning after December 15, 2025 and for interim periods within fiscal years beginning after December 15, 2025. The adoption of this guidance is not expected to have a material impact on our consolidated financial statements.

In November 2024, the FASB issued ASU 2024-03, “Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses”. The amendments address investor requests for more detailed expense information and require additional disaggregated disclosures in the notes to financial statements for certain categories of expenses that are included on the face of the income statement. The amendments are effective for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027, with early adoption permitted. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

### 3. LOSS PER SHARE

The following table sets forth the computation of basic and diluted net loss per share on the consolidated statements of operations:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2026	2025	2026	2025
Numerator:				
Net loss	\$ (106,343)	\$ (134,588)	\$ (242,974)	\$ (258,226)
Denominator:				
Basic and diluted weighted average shares outstanding	90,993	90,247	90,650	90,080
Basic and diluted net loss per common share	\$ (1.17)	\$ (1.49)	\$ (2.68)	\$ (2.87)

Due to the Company’s net loss in each of the three and nine months ended March 31, 2026 and March 31, 2025, all common stock equivalents such as stock options, unvested restricted share units and performance share units have been excluded from the computation of diluted net loss per share. The effect of the stock options and unvested restricted share units would have been anti-dilutive to the computations. The performance share units were contingently issuable based on market conditions or performance goals and such conditions or goals had not been achieved during the respective periods.

### 4. ASSETS AND LIABILITIES HELD FOR SALE

During the third quarter of fiscal year 2025, the Company announced that it was exploring strategic alternatives regarding its personal care (“PC”) business to focus on its portfolio of better-for-you food and beverages. The Company determined that its PC business was held for sale and ascribed an aggregate \$11,000 of goodwill from its U.S. and Canada reporting units, which comprise the North America reportable segment, to the PC business. The operating results of the business were not significant. The Company anticipates that it will sell or dispose of these assets within 12 months. During the nine months ended March 31, 2026, the Company recorded a non-cash charge of \$11,448 to write down the carrying amount of the disposal group to its estimated fair value less cost to dispose, which was reflected within long-lived asset and intangibles impairment on the consolidated statements of operations.

During the nine months ended March 31, 2026, the Company substantially completed the exit of the Yves Veggie Cuisine®

plant-based business in Canada (“Yves”) and accordingly classified its remaining property, plant and equipment, net, with a remaining carrying value of \$2,589 as held for sale.

The following table presents the major classes of assets and liabilities of the PC business and Yves classified as held for sale:

## 5. DISPOSITIONS

### *North American Snacks Business*

On February 27, 2026, the Company completed the sale of its North American Snacks Business for \$111,200 in cash, reflecting the total purchase price of \$115,000 less the holdback of an estimate for a customary inventory adjustment. During the nine months ended March 31, 2026, the Company deconsolidated the net assets of the North American Snacks Business, primarily consisting of \$57,082, \$55,952, and \$29,415 of goodwill, property, plant and equipment, and inventory, respectively, and recognized a pretax loss on sale of \$50,764, which was recorded in other expense, net. The Transaction does not meet the criteria requiring the presentation of the business as a discontinued operation in accordance with U.S. GAAP and is considered a disposition of a significant business. The Company continues to maintain its snacks business within the International reportable segment.

### *ParmCrisps®*

On August 30, 2024, the Company completed the sale of its ParmCrisps® business for total cash consideration of \$12,000, subject to customary post-closing adjustments. During the nine months ended March 31, 2025, the Company deconsolidated the net assets of ParmCrisps®, primarily consisting of \$7,280, \$6,725, and \$1,282 of goodwill, inventory, and machinery and equipment, respectively, and recognized a pretax loss on sale of \$3,863 recorded in other expense, net.

## 6. INVENTORIES

Inventories consisted of the following:

	<b>March 31, 2026</b>	<b>June 30, 2025</b>
Finished goods	\$ 113,569	\$ 177,990
Raw materials, work-in-progress, and packaging	45,502	70,741
	<u>\$ 159,071</u>	<u>\$ 248,731</u>

## 7. PROPERTY, PLANT AND EQUIPMENT, NET

Property, plant and equipment, net consisted of the following:

	<b>March 31, 2026</b>	<b>June 30, 2025</b>
Land	\$ 11,107	\$ 11,926
Buildings and improvements	55,862	61,788

Less: Accumulated depreciation	251,885	287,288
	<u>\$ 188,104</u>	<u>\$ 264,730</u>

Depreciation expense for the three months ended March 31, 2026 and 2025 was \$7,280 and \$8,013, respectively. Depreciation expense for the nine months ended March 31, 2026 and 2025 was \$26,822 and \$23,961, respectively.

As of March 31, 2026, the Company reclassified \$2,590 of property, plant and equipment, net related to Yves as held for sale (see Note 4, *Assets and Liabilities Held for Sale*, for details).

During the nine months ended March 31, 2026, the Company completed the divestiture of its North American Snacks Business and deconsolidated its associated property, plant and equipment (see Note 5, *Dispositions*, for details).

During the nine months ended March 31, 2025, the Company recognized a non-cash impairment charge of \$2,254 to reduce the carrying value of certain personal care production assets in the North America reportable segment to their estimated fair value. During the nine months ended March 31, 2025, the Company recognized a \$1,600 pretax gain on the sale of its former Bell, CA production facility long-lived assets, which was included as a component of other income, net on the consolidated statement of operations.

## 8. LEASES

The Company leases office space, warehouse and distribution facilities, manufacturing equipment and vehicles primarily in North America and Western Europe. The Company determines if an arrangement is or contains a lease at inception. Right of use assets related to finance leases are included in property, plant and equipment, net on the consolidated balance sheets. Lease liabilities for finance leases are included in the current and non-current portions of long-term debt on the consolidated balance sheets. The current portion of the operating lease liabilities is included in accrued expenses and other current liabilities on the consolidated balance sheets. The Company does not have any related party leases, and sublease transactions are de minimis.

The components of lease expenses for the three and nine months ended March 31, 2026 and 2025 were as follows:

	Three Months Ended		Nine Months Ended	
	March 31, 2026	March 31, 2025	March 31, 2026	March 31, 2025
Operating lease expenses	\$ 3,341	\$ 2,747	\$ 10,399	\$ 10,793
Finance lease expenses	51	34	181	106
Variable lease expenses	32	156	89	506
Short-term lease expenses	120	251	659	1,091
Total lease expenses	<u>\$ 3,544</u>	<u>\$ 3,188</u>	<u>\$ 11,328</u>	<u>\$ 12,496</u>

## 9. GOODWILL AND OTHER INTANGIBLE ASSETS

### Goodwill

The following table provides the changes in the carrying value of goodwill by reportable segment:

	North America	International	Total
Balance as of June 30, 2025 <sup>(1)</sup>	\$ 312,321	\$ 188,640	\$ 500,961
Divestiture <sup>(2)</sup>	(57,082)	—	(57,082)
Impairment charge	(38,495)	(112,431)	(150,926)
Translation	—	(4,656)	(4,656)
Balance as of March 31, 2026	<u>\$ 216,744</u>	<u>\$ 71,553</u>	<u>\$ 288,297</u>

<sup>(1)</sup> The total carrying value of goodwill is reflected net of \$563,159 of accumulated impairment charges, of which \$365,379 is related to the North America reportable segment and \$197,780 is related to the International reportable segment.

<sup>(2)</sup> During February 2026, the Company completed the divestiture of its North American Snacks Business. Goodwill of \$57,082 was ascribed to the divested businesses on a relative fair value basis related to the North America reportable segment.

As of March 31, 2026, the Company performed an assessment of factors to determine whether it was more likely than not that the fair value of each reporting unit within the North America and International reportable segments was less than its respective carrying amount, including goodwill. As a result of a decline in the projected performance and expected future cash flows, the Company completed interim quantitative impairment tests of goodwill for all of its international reporting units: U.K., Western Europe and Ella's Kitchen UK. For the U.S. reporting unit, the Company performed a qualitative evaluation to assess factors to determine whether it is more likely than not that the fair value of the reporting unit is less than its carrying amount, including goodwill, and concluded that the U.S. reporting unit's estimated fair value exceeded its carrying amount.

In performing the quantitative tests for the U.K., Western Europe, and Ella's Kitchen UK reporting units, the fair values were estimated using a blended approach of the Discounted Cash Flow ("DCF") method income approach and the Guideline Public Company Methodology ("GPCM") market approach. As of March 31, 2026, the U.K. reporting unit's carrying amount exceeded its estimated fair value of \$227,121, resulting in the recognition of a non-cash impairment charge of \$31,018 to reduce the carrying value of the U.K. reporting unit goodwill to nil. The U.K. reporting unit's impairment charges reflected a decline in sales volume and further compression in Adjusted EBITDA that the Company continued to experience. Aggregate goodwill impairment charges associated with the U.K. and U.S. reporting units were \$112,431 and \$38,495, respectively for the nine months ended March 31, 2026.

As of March 31, 2026, the estimated fair values of the Western Europe and Ella's Kitchen UK reporting units exceeded their carrying amounts by 9.4% and 117.8%, respectively. The discount rate in the quantitative tests for the Western Europe and Ella's Kitchen UK reporting units also reflected an increase in the small stock premium related to a decline in the Company's market capitalization.

The goodwill related to the U.S. and Western Europe reporting units remains at risk of potential impairment if the fair values of these reporting units, and their associated assets, decrease in value due to the amount and timing of expected future cash flows, decreased customer demand for products, an inability to execute management's business strategies, or general market conditions, such as economic downturns, and changes in interest rates, including discount rates. Future cash flow estimates are, by their nature, subjective, and actual results may differ materially from the Company's estimates. If the Company's ongoing cash flow projections are not met or if market factors utilized in the impairment test deteriorate, including an unfavorable change in the terminal growth rate or the weighted-average cost of capital, the Company may have to record additional impairment charges in future periods.

During the three months ended March 31, 2025, the Company recognized non-cash impairment charges of \$88,712 and \$21,539 to reduce the carrying values of the goodwill of the U.S. and Canada reporting units to their estimated fair values. Aggregate goodwill impairment charges associated with the U.S. reporting unit were \$179,979 for the nine months ended March 31, 2025.

**Other Intangible Assets**

The following table includes the gross carrying amount and accumulated amortization, where applicable, for intangible assets, excluding goodwill:

	<b>March 31, 2026</b>	<b>June 30, 2025</b>
<b>Non-amortized intangible assets:</b>		
Trademarks and tradenames <sup>(1)</sup>	\$ 69,651	\$ 179,282
<b>Amortized intangible assets:</b>		
Other intangibles <sup>(2)(3)</sup>	238,567	159,162
Less: Accumulated amortization	(129,932)	(127,539)
Net amortized intangible assets	108,635	31,623
<b>Net other intangible assets</b>	<b>\$ 178,286</b>	<b>\$ 210,905</b>

<sup>(1)</sup> The gross carrying value of trademarks and tradenames is reflected net of \$290,260 and \$275,990 of accumulated impairment charges as of March 31, 2026 and June 30, 2025, respectively. Effective April 1, 2026, as part of its annual impairment testing and in connection with the strategic review, the Company elected to change the useful life of its remaining intangible assets from indefinite to definite.

<sup>(2)</sup> The reduction in carrying value of other intangible assets as of March 31, 2026 reflected accumulated non-cash impairment charges of \$30,326 as of each of March 31, 2026 and June 30, 2025.

<sup>(3)</sup> During the three months ended March 31, 2026, the useful life for certain tradenames (namely, Ella's Kitchen<sup>®</sup> baby and kids foods, Hartley's<sup>®</sup> Jelly and Spectrum<sup>®</sup> culinary oils, vinegars and condiments) were reclassified from indefinite to definite-lived. The carrying value of such intangible assets as of March 31, 2026 was \$81,333.

During the three months ended March 31, 2026, as a result of a continued decline in actual and projected net sales driven by challenges related to regaining Earth's Best<sup>®</sup> formula distribution, the Company conducted an interim quantitative impairment test for its Earth's Best<sup>®</sup> Organic indefinite-lived tradename. The Company concluded that the indefinite-lived intangible asset carrying amount exceeded its estimated fair value and recorded a non-cash impairment charge of \$2,038 during the three months ended March 31, 2026, which was recorded within long-lived asset and intangibles impairment on the consolidated statement of operations. The Earth's Best<sup>®</sup> indefinite-lived tradename is part of the North America reportable segment and had a remaining carrying value of \$20,000 as of March 31, 2026.

During the three months ended March 31, 2026, as a result of a decline in projected net sales driven by shifting consumer behavior towards private label soup, the Company conducted an interim quantitative impairment test for its soup indefinite-lived tradenames (Cully & Sully<sup>®</sup>, Yorkshire Provender<sup>®</sup>, and New Covent Garden<sup>®</sup> soups). The Company concluded that the estimated fair value exceeded the carrying amount by 8.0%. The soup indefinite-lived intangible assets are part of the International reportable segment and had a remaining aggregate carrying value of \$23,229 as of March 31, 2026.

During the nine months ended March 31, 2026, the Company conducted an interim quantitative impairment test for its Ella's Kitchen<sup>®</sup> baby and kids foods and Hartley's<sup>®</sup> jelly tradenames and recorded a non-cash impairment charge of \$11,917 for Hartley's<sup>®</sup> jelly indefinite-lived tradename. The estimated fair value of the Ella's Kitchen<sup>®</sup> tradename exceeded its carrying amount by 12.8%. These tradenames were subsequently reclassified to definite-lived and ascribed a useful life of 10 years. Such tradenames are part of the International reportable segment and have remaining carrying values of \$34,246 and \$37,336, respectively, as of March 31, 2026.

During the nine months ended March 31, 2025, the Company recorded a non-cash impairment charge of \$15,733 within its North America reportable segment related to its personal care intangible assets, primarily Avalon Organics<sup>®</sup>, JASON<sup>®</sup>, and Live Clean<sup>®</sup> trademarks and tradenames. The assets are part of the North America reportable segment.

Amortized intangible assets, which are deemed to have a finite life, primarily consist of customer relationships, trademarks and tradenames and are amortized over their estimated useful lives of 7 to 25 years. The weighted average remaining amortization period of amortized intangible assets is 9.2 years.

Amortization expense included in the consolidated statements of operations is as follows:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2026	2025	2026	2025
Amortization of acquired intangibles	\$ 3,314	\$ 1,243	\$ 5,725	\$ 5,176

## 10. DEBT AND BORROWINGS

Debt and borrowings consisted of the following:

	March 31, 2026	June 30, 2025
Revolving credit facility	\$ 401,000	\$ 450,500
Term loans	148,825	255,550
Less: Unamortized issuance costs	(724)	(1,844)
Finance lease obligations	395	615
Current debt and finance lease obligations <sup>(1)</sup>	549,496	704,821
Long-term debt and finance lease obligations, less current portion	\$ 312	\$ 697,168

<sup>(1)</sup> Includes \$83 (June 30, 2025: \$153) of finance lease obligations.

### Amended and Restated Credit Agreement

On December 22, 2021, the Company entered into a Fourth Amended and Restated Credit Agreement (as subsequently amended, the "Credit Agreement"). The Credit Agreement originally provided for senior secured financing of \$1,100,000 in the aggregate, consisting of (1) \$300,000 in aggregate principal amount of term loans (the "Term Loans") and (2) an \$800,000 senior secured revolving credit facility (which includes borrowing capacity available for letters of credit, and was originally comprised of a \$440,000 U.S. revolving credit facility and \$360,000 global revolving credit facility) (the "Revolver"). Both the Revolver and the Term Loans mature on December 22, 2026. The Company's obligations under the Credit Agreement are guaranteed by certain existing and future domestic subsidiaries of the Company and are secured by liens on assets of the Company and its material domestic subsidiaries, including the equity interest in each of their direct subsidiaries and intellectual property, subject to agreed-upon exceptions.

The Credit Agreement includes financial covenants that require compliance with a consolidated secured leverage ratio, a consolidated leverage ratio and a consolidated interest coverage ratio. On August 22, 2023, the Company entered into a Second Amendment (the “Second Amendment”) to the Credit Agreement. Pursuant to the Second Amendment, the Company’s maximum consolidated secured leverage ratio was amended to be 5.00:1.00 until September 30, 2023, 5.25:1.00 until December 31, 2023, 5.00:1.00 until December 31, 2024, and 4.25:1.00 thereafter. Pursuant to the Credit Agreement, the Company’s maximum consolidated leverage ratio is 6.00:1.00 and its minimum interest coverage ratio was 2.50:1.00.

From the date of the Second Amendment until the date of the Third Amendment, loans under the Credit Agreement bore interest at (a) the Secured Overnight Financing Rate plus a credit spread adjustment of 0.10% (“Term SOFR”) plus 2.5% per annum or (b) the Base Rate (as defined in the Credit Agreement) plus 1.5% per annum.

On May 5, 2025, the Company entered into a Third Amendment (the “Third Amendment”) to the Credit Agreement. Pursuant to the Third Amendment, the Company’s maximum consolidated secured leverage ratio was amended to be 4.75:1.00 for the quarter ending June 30, 2025 through (and including) the quarter ending March 31, 2026, 4.50:1.00 for the quarter ending June 30, 2026, and 4.25:1.00 for the quarter ending September 30, 2026 and thereafter.

Commencing on the date of the Third Amendment, loans under the Credit Agreement bore interest at (a) Term SOFR plus 3.00% per annum or (b) the Base Rate plus 2.00% per annum.

The Third Amendment also reduced the size of the Revolver from \$800,000 to \$700,000 in the aggregate, with the U.S. revolving credit facility reduced from \$440,000 to \$385,000 and the global revolving credit facility reduced from \$360,000 to \$315,000.

On September 11, 2025, the Company entered into a Fourth Amendment (the “Fourth Amendment”) to the Credit Agreement. Pursuant to the Fourth Amendment, (x) the Company’s maximum consolidated secured leverage ratio was amended to be 5.00:1.00 for the quarter ending June 30, 2025 and 5.50:1.00 for the quarter ending September 30, 2025 and thereafter, (y) the Company’s minimum consolidated interest coverage ratio was amended to be 2.00:1.00 for the quarter ending September 30, 2025 and thereafter and (z) a covenant was added requiring the Company to maintain a minimum Consolidated EBITDA (as such term is defined in the Credit Agreement as amended by the Fourth Amendment) of (i) \$17,000 for the quarter ending September 30, 2025 and (ii) \$52,000 for the cumulative two quarters ending September 30, 2025 and on December 31, 2025. The aforementioned financial covenants use financial measures that are defined under the Credit Agreement and not pursuant to U.S. GAAP.

Commencing on the date of the Fourth Amendment, loans under the Credit Agreement bear interest at (a) Term SOFR plus 4.00% per annum or (b) the Base Rate plus 3.00% per annum.

The Fourth Amendment also reduced the size of the Revolver from \$700,000 to \$600,000 in the aggregate, with the U.S. revolving credit facility reduced from \$385,000 to \$330,000 and the global revolving credit facility reduced from \$315,000 to \$270,000.

Excluding the impact of hedges, the weighted average interest rate on outstanding borrowings under the Credit Agreement at March 31, 2026 was 7.74%. The Company uses interest rate swaps to hedge a portion of the interest rate risk related to its outstanding variable rate debt. As of March 31, 2026, the notional amount of the interest rate swaps was \$400,000 with fixed rate payments of 7.12%. Including the impact of hedges, the weighted average interest rate on outstanding borrowings under the Credit Agreement at March 31, 2026 was 7.41%. Additionally, the Credit Agreement contains a commitment fee of 0.25% per annum on the amount unused under the Credit Agreement.

As of March 31, 2026, there were \$401,000 of loans under the Revolver, \$148,825 of Term Loans, and \$3,099 of letters of credit outstanding under the Credit Agreement. As of March 31, 2026, the Company had \$549,825 of debt obligations maturing on December 22, 2026. See Note 2, *Basis of Presentation*, for management’s going concern assessment and plan. As of March 31, 2026 and June 30, 2025, \$195,901 and \$246,725, respectively, was available under the Credit Agreement, subject to compliance with the financial covenants. As of March 31, 2026, the Company was in compliance with all associated covenants.

*Credit Agreement Issuance Costs*

In connection with the Fourth Amendment to its Credit Agreement during the first quarter of fiscal year 2026, the Company incurred debt issuance costs of approximately \$2,846, of which \$2,529 was deferred. Of the total deferred costs, \$1,996 were associated with the Revolver and are being amortized on a straight-line basis within Other assets on our Consolidated Balance Sheets, and \$533 are being amortized on a straight-line basis, which approximates the effective interest method, as an adjustment to the carrying amount of the Term Loans as a component of Interest and other financing expense, net over the term of the Credit Agreement. Further, the Fourth Amendment decreased the borrowing capacity of the Revolver, resulting in write-off of \$604 of previously capitalized deferred costs. During the three months ended March 31, 2026, in connection with the \$101,100 repayment of the Term Loans, \$542 of previously capitalized deferred costs were written off.

Interest paid during the three and nine months ended March 31, 2026 was \$11,962 and \$39,809, respectively. Interest paid during the three and nine months ended March 31, 2025 was \$10,732 and \$35,014, respectively.

**11. INCOME TAXES**

In general, the Company uses an estimated annual effective tax rate, which is based on expected annual income and statutory tax rates in the various jurisdictions in which the Company operates, to determine its quarterly provision for income taxes. However, to the extent that application of the estimated annual effective tax rate is not representative of the quarterly portion of actual tax expense expected to be recorded for the year in a jurisdiction, the Company determines the provision for income taxes based on actual year-to-date income (loss) which it has done for certain jurisdictions for the quarter ended March 31, 2026. Certain significant or unusual items are separately recognized in the quarter in which they occur and can be a source of variability on the effective tax rates from quarter to quarter. The Company's effective tax rate may change from period-to-period based on recurring and non-recurring factors including the geographical mix of earnings, enacted tax legislation, state and local income taxes and tax audit settlements.

The Company continued to record a valuation allowance on deferred tax assets in the U.S. and certain other jurisdictions due to the combination of its history of pretax losses and its inability to carry back tax losses or credits. The effective income tax rate was an expense of 0.7% and a benefit of 0.4% for the three months ended March 31, 2026 and 2025, respectively. The effective income tax rate was an expense of 0.8% and 2.3% for the nine months ended March 31, 2026 and 2025, respectively. The effective income tax rate for the three months ended March 31, 2026 was impacted by the geographical mix of earnings, state income taxes, impairment of goodwill and intangibles and the sale of the North American Snacks Business, as well as movement in both federal and state valuation allowances. The effective income tax rate for the nine months ended March 31, 2026 was also impacted by a Representation & Warranty ("R&W") insurance payout related to a prior acquisition. The effective income tax rates for the three and nine months ended March 31, 2025 were impacted by the impairment of goodwill and personal care intangibles and movement in both federal and state valuation allowances.

### 13. STOCK-BASED COMPENSATION AND INCENTIVE PERFORMANCE PLANS

The Company maintains a stockholder-approved plan, The Hain Celestial Group, Inc. 2022 Long Term Incentive and Stock Award Plan (as amended, the “2022 Plan”), which was approved at the Company’s 2022 Annual Meeting of Stockholders held on November 17, 2022, and further amended at each of the Company’s 2024 Annual Meeting of Stockholders held on October 31, 2024 and the Company’s 2025 Annual Meeting of Stockholders held on October 30, 2025. The 2022 Plan permits the Company to continue making equity-based and other incentive awards in a manner intended to properly incentivize its employees, directors, consultants and other service providers by aligning their interests with the interests of the Company’s stockholders. The 2022 Plan is administered by the Compensation Committee of the Company’s Board of Directors. The Company also historically granted shares under its Amended and Restated 2002 Long-Term Incentive and Stock Award Plan and its 2019 Equity Inducement Award Program. The Company’s long-term incentive program (“LTIP”) is described in Note 14, *Stock-Based Compensation and Incentive Performance Plans*, in the Notes to the Consolidated Financial Statements in the Form 10-K.

In the second quarter of fiscal 2025, a form of awards was granted to employees that can be settled in cash or stock, at the Company’s discretion. These awards are accounted for as liability-based equity awards since the Company has the ability and intent to settle such awards in cash.

Compensation cost and related income tax benefits recognized in the consolidated statements of operations for stock-based compensation plans were as follows:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2026	2025	2026	2025
Selling, general and administrative expense				
Stock-based awards	\$ 1,138	\$ 2,973	\$ 4,192	\$ 9,422
Cash-settled awards	368	291	695	563
Total selling, general and administrative expenses	\$ 1,506	\$ 3,264	\$ 4,887	\$ 9,985
Related income tax benefit	\$ 128	\$ 275	\$ 161	\$ 748

#### *Stock-Based Award Activity*

Stock-based awards are generally issued in the form of restricted share units (“RSUs”), which are service-based awards, and performance share units (“PSUs”) that are subject to the achievement of minimum market conditions or performance goals. RSU awards to employees generally provide for vesting in equal annual installments over a period of three years, with different vesting periods in certain cases. RSU awards to non-employee directors generally provide for a vesting period of one year. For PSU awards, the following share figures are stated at target levels, and the awards outstanding as of March 31, 2026 generally provide for vesting at 0% to 100%, 150% or 200% of the target level. Awards of PSUs and RSUs are issued at no cost to the recipient. A summary of all stock-based award activity for the nine months ended March 31, 2026 is as follows:

	Number of Shares and Units	Weighted Average Grant Date Fair Value (per share)
Non-vested RSUs and PSUs outstanding at June 30, 2025	2,624	\$ 9.09
Granted <sup>(1)</sup>	5,406	\$ 0.94
Vested	(965)	\$ 6.77
Forfeited	(1,032)	\$ 8.73
Non-vested RSUs and PSUs outstanding at March 31, 2026	6,033	\$ 2.23

<sup>(1)</sup> For RSUs and performance-based PSUs, the Company uses the fair market value of the Company's common stock on the grant date to measure fair value for service-based awards and for market-based PSUs, the Company uses a Monte Carlo simulation model to determine the fair value of those awards granted under the LTIP.

The fair value of RSUs and PSUs granted and of shares vested, and the tax benefit recognized from restricted shares vesting, was as follows:

	Nine Months Ended March 31,			
	2026		2025	
Fair value of RSUs and PSUs granted	\$	5,101	\$	14,855
Fair value of shares vested	\$	1,271	\$	4,715
Tax benefit recognized from restricted shares vesting	\$	210	\$	620

At March 31, 2026, there was \$7,057 of unrecognized stock-based compensation expense related to non-vested stock-based awards, which is expected to be recognized over a weighted average period of 0.95 year.

#### **Cash-Settled Award Activity**

The Company grants cash-settled awards that are either service-based or subject to the achievement of minimum market conditions or performance goals. Service-based cash awards generally provide for vesting in equal annual installments over a period of three years, with different vesting periods in certain cases. For cash awards tied to minimum market conditions or performance goals, award amounts are stated at target levels with vesting at 0% to 100%, 150% of the target level depending on conditions or performance. Cash-based awards are issued at no cost to the recipient.

The fair value of these cash-settled awards is measured at each reporting period until the awards are settled. The performance-based cash-settled award liability at March 31, 2026 was recorded ratably based on the Company's projected achievement at the end of the measurement period. The cash incentive award liability was \$542 at March 31, 2026, which is classified as a liability and reported in accrued expenses and other current liabilities.

During the nine months ended March 31, 2026, the estimated fair value of granted cash-settled awards was \$3,392. For the nine months ended March 31, 2026, the Company recognized a forfeiture adjustment of \$1,036.

At March 31, 2026, there was \$3,566 of unrecognized cash-based compensation expense related to non-vested awards, which is expected to be recognized over a weighted average period of 2.26 years.

#### **CEO Grant**

In connection with her appointment as Interim President and Chief Executive Officer, Alison Lewis received a one-time grant of 621 RSUs on May 7, 2025. On December 15, 2025, upon her appointment as President and Chief Executive Officer, she vested in a prorated portion of that grant, resulting in the vesting of 378 shares of common stock and the residual awards were forfeited.

On December 15, 2025, Ms. Lewis received a grant under the LTIP for a total of 2,150 share units comprising 1,500 PSUs and 650 RSUs which represent the total three-year long-term incentive opportunity that would have been granted under the fiscal year 2026 – 2028 LTIP. The PSUs will vest upon the achievement of pre-established stock price targets while she is employed as follows:

- 375 shares if the 30-trading day average stock price equals or exceeds \$3.00
- 375 shares if the 30-trading day average stock price equals or exceeds \$5.00
- 375 shares if the 30-trading day average stock price equals or exceeds \$7.00
- 375 shares if the 30-trading day average stock price equals or exceeds \$9.00

The RSUs will vest one-third each year on the anniversary of the start date, subject to her continued employment.

#### 14. FAIR VALUE MEASUREMENTS

The Company's financial assets and liabilities measured at fair value are required to be grouped in one of three levels. The levels prioritize the inputs used to measure the fair value of the assets or liabilities. These levels are:

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and
- Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The following table presents assets and liabilities measured at fair value on a recurring basis as of March 31, 2026:

	<b>Total</b>	<b>Quoted prices in active markets (Level 1)</b>	<b>Significant other observable inputs (Level 2)</b>	<b>Significant unobservable inputs (Level 3)</b>
<b>Assets:</b>				
Derivative financial instruments	\$ 1,854	\$ —	\$ 1,854	\$ —
<b>Liabilities:</b>				
Derivative financial instruments	\$ 14,679	\$ —	\$ 14,679	\$ —

The following table presents assets and liabilities measured at fair value on a recurring basis as of June 30, 2025:

	<b>Total</b>	<b>Quoted prices in active markets (Level 1)</b>	<b>Significant other observable inputs (Level 2)</b>	<b>Significant unobservable inputs (Level 3)</b>
<b>Assets:</b>				
Derivative financial instruments	\$ 5,835	\$ —	\$ 5,835	\$ —
<b>Liabilities:</b>				
Derivative financial instruments	\$ 19,706	\$ —	\$ 19,706	\$ —

There were no transfers of financial instruments between the three levels of fair value hierarchy during the nine months ended March 31, 2026 or 2025.

##### ***Derivative Instruments***

The Company uses interest rate swaps to manage interest rate risk and cross-currency swaps and foreign currency exchange contracts to manage exposure to currency fluctuations. These instruments are valued using techniques like DCF analysis, which considers the contractual terms and market-based inputs such as interest rate curves and implied volatilities. The fair values of interest rate swaps are determined by netting the discounted future fixed and variable cash flows. The variable cash flows are based on expected future interest rates.

Credit valuation adjustments are made to reflect the nonperformance risk of both the Company and its counterparties. Most inputs used to value derivatives fall within Level 2 of the fair value hierarchy, but credit valuation adjustments use Level 3 inputs, such as current credit spreads. The impact of these adjustments was not significant to the overall valuation, so all derivatives as of March 31, 2026 and June 30, 2025 were classified as Level 2.

### ***Nonrecurring Fair Value Measurements***

The Company measures certain non-financial assets, such as goodwill, intangible assets, property and equipment, and right-of-use lease assets, at fair value on a nonrecurring basis. These assets are initially measured at fair value at the time of acquisition or purchase, with adjustments only for foreign currency translation. Periodically, these assets are tested for impairment by comparing their carrying values to their estimated fair values. If an asset is impaired, the Company recognizes an impairment expense equal to the excess of the carrying value over the estimated fair value.

For indefinite-lived intangible assets, fair value is determined using the relief from royalty approach, considering factors like future growth, royalty rates, discount rates, and other variables. Fair value measurements for reporting units are estimated using a blended analysis of the DCF income approach and GPCM market approach, which involve significant management judgment and Level 3 inputs, such as economic conditions and customer demand. These measurements are performed at least annually for impairment testing. The Company bases its fair value estimates on reasonable assumptions but acknowledges their unpredictability and inherent uncertainty.

During the three and nine months ended March 31, 2026, the Company recorded non-cash impairment charges of \$38,495 and \$112,431, respectively, associated with the U.K. reporting unit, as discussed in Note 9, *Goodwill and Other Intangible Assets*. As of March 31, 2026, the U.K. reporting unit goodwill balances was classified as a Level 3 asset measured at fair value on a nonrecurring basis with an estimated fair value of \$227,121. During the nine months ended March 31, 2026, the Company recorded a non-cash impairment charge of \$38,495 related to goodwill of the U.S. reporting unit, which was classified as a Level 3 asset based on an estimated fair value of \$459,000.

During the three months ended March 31, 2026, the Company conducted an interim quantitative impairment test for its soup (Cully & Sully<sup>®</sup>, Yorkshire Provender<sup>®</sup>, and New Covent Garden<sup>®</sup> soups) and Earth's Best<sup>®</sup> Organic indefinite-lived tradenames. During the three and nine months ended March 31, 2026, the Company recorded non-cash impairment charges of \$2,038 for the Earth's Best<sup>®</sup> Organic indefinite-lived tradename, as discussed in Note 9, *Goodwill and Other Intangible Assets*. As of March 31, 2025, such intangible assets were classified as Level 3 assets measured at fair value on a nonrecurring basis with estimated fair values of \$23,229 and \$20,000, respectively.

During the nine months ended March 31, 2026, the Company conducted an interim quantitative impairment test for its Ella's Kitchen<sup>®</sup> baby and kids foods and Hartley's<sup>®</sup> jelly indefinite-lived tradenames and recorded a non-cash impairment charge of \$11,917 for Hartley's<sup>®</sup> jelly indefinite-lived tradename, as discussed in Note 9, *Goodwill and Other Intangible Assets*. As of March 31, 2026, such intangible assets were classified as Level 3 assets measured at fair value on a nonrecurring basis with estimated fair value of \$34,246 and \$37,336, respectively.

During the nine months ended March 31, 2025, the Company recorded aggregate non-cash impairment charges of \$201,518 related to goodwill within its North America reportable segment as discussed in Note 9, *Goodwill and Other Intangible Assets*.

## **15. DERIVATIVES AND HEDGING ACTIVITIES**

### **Risk Management Objective of Using Derivatives**

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company manages its exposures to a wide variety of business and operational risks. The Company manages economic risks, including interest rate, liquidity, and credit risk, primarily by managing the amount, sources and duration of its assets and liabilities and the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative financial instruments are used to manage differences in the amount, timing, and duration of the Company's known or expected cash receipts and its known or expected cash payments principally related to the Company's receivables and borrowings.

Certain of the Company's foreign operations expose the Company to fluctuations of foreign exchange rates. These fluctuations may impact the value of the Company's cash receipts and payments in terms of the Company's functional currency. The Company enters into derivative financial instruments to protect the value or fix the amount of certain assets and liabilities in terms of its

functional currency, the U.S. Dollar. Accordingly, the Company uses derivative financial instruments to manage and mitigate such risks. The Company does not use derivatives for speculative or trading purposes.

#### ***Cash Flow Hedges of Interest Rate Risk***

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. During the three and nine months ended March 31, 2026 and 2025, such derivatives were used to hedge the variable cash flows associated with existing variable rate debt.

For derivatives designated and that qualify as cash flow hedges of interest rate risk, the gain or loss on the derivative is recorded in AOCL and subsequently reclassified into interest expense in the same period during which the hedged transaction affects earnings. Amounts reported in AOCL related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable rate debt. During the next 12 months, the Company estimates that an additional \$1,842 will be reclassified as a decrease to interest expense.

As of March 31, 2026, the Company had the following outstanding interest rate derivatives that were designated as cash flow hedges of interest rate risk:

<b>Interest Rate Derivative</b>	<b>Number of Instruments</b>	<b>Notional Amount</b>	
Interest rate swap	4	\$	400,000

#### ***Cash Flow Hedges of Foreign Exchange Risk***

The Company is exposed to fluctuations in various foreign currencies against its functional currency, the U.S. Dollar. The Company, at times, uses forward contracts to manage its exposure to fluctuations in the GBP-EUR exchange rates. The Company designates these derivatives as cash flow hedges of foreign exchange risks.

For derivatives designated and that qualify as cash flow hedges of foreign exchange risk, the gain or loss on the derivative is recorded in AOCL and subsequently reclassified in the same period during which the hedged transaction affects earnings within the same income statement line item as the earnings effect of the hedged transaction. During the next 12 months, the Company estimates that an additional \$4 relating to the foreign currency forward contracts will be reclassified to interest expense.

As of March 31, 2026, the Company had the following outstanding foreign currency derivatives that were used to hedge its foreign exchange risks:

<b>Foreign Currency Derivative</b>	<b>Number of Instruments</b>	<b>Notional Sold</b>		<b>Notional Purchased</b>	
Foreign currency forward contract	10	£	3,547	€	4,050

#### ***Net Investment Hedges***

The Company is exposed to fluctuations in foreign exchange rates on investments it holds in its European foreign entities and their exposure to the Euro. The Company uses fixed-to-fixed cross-currency swaps to hedge its exposure to changes in the foreign exchange rate on its foreign investment in Western Europe. Currency forward agreements involve fixing the USD-EUR exchange rate for delivery of a specified amount of foreign currency on a specified date. The currency forward agreements are typically cash settled in U.S. Dollars for their fair value at or close to their settlement date. Cross-currency swaps involve the receipt of functional-currency-fixed-rate amounts from a counterparty in exchange for the Company making foreign-currency-fixed-rate payments over the life of the agreement.

For derivatives designated as net investment hedges, the gain or loss on the derivative is reported in AOCL as part of the cumulative translation adjustment. Amounts are reclassified out of AOCL into earnings when the hedged net investment is either sold or substantially liquidated.

During the three months ended March 31, 2025, the Company terminated four EUR-USD cross-currency swaps across various counterparties and received proceeds of \$2,363. The Company simultaneously entered into new, at-market cross currency swaps with the same aggregate notional amount as the previous net investment hedges. The gain from termination will remain in AOCL until the net investment is sold or substantially liquidated.

As of March 31, 2026, the Company had the following outstanding foreign currency derivatives that were used to hedge its net investments in foreign operations:

Foreign Currency Derivative	Number of Instruments	Notional Sold	Notional Purchased
Cross-currency swap	4	€ 100,300	\$ 103,312

**Fair Value Hedges**

The Company is exposed to changes in the fair value of certain of its foreign denominated intercompany loans due to changes in foreign exchange spot rates. The Company uses fixed-to-fixed cross-currency swaps to hedge its exposure to changes in foreign exchange rates affecting gains and losses on intercompany loan principal and interest. Cross-currency swaps involve the receipt of functional-currency-fixed-rate amounts from a counterparty in exchange for the Company making foreign-currency-fixed-rate payments over the life of the agreement.

For derivatives designated and that qualify as fair value hedges, the gain or loss on the derivative as well as the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in interest and other financing expense, net.

Gains and losses on the derivative representing hedge components excluded from the assessment of effectiveness are recognized over the life of the hedge on a systematic and rational basis, as documented at hedge inception in accordance with the Company's accounting policy election. The earnings recognition of excluded components is presented in the same income statement line item as the earnings effect of the hedged transaction.

During the three months ended March 31, 2025, the Company terminated one EUR-USD cross-currency swap and received proceeds of \$552. The Company simultaneously entered into a new, at-market cross currency swap with the same notional amount as the previous fair value hedge. A portion of gain was recognized in the consolidated statement of comprehensive loss, and the balance was deferred to AOCL where it will be amortized on a straight-line basis.

As of March 31, 2026, the Company had the following outstanding foreign currency derivatives that were used to hedge changes in fair value attributable to foreign exchange risk:

Foreign Currency Derivative	Number of Instruments	Notional Sold	Notional Purchased
Cross-currency swap	1	€ 24,700	\$ 25,453

As of March 31, 2026 and June 30, 2025, the following amounts were recorded on the consolidated balance sheets related to cumulative basis adjustment for fair value hedges:

	Carrying Amount of the Hedged Asset		Cumulative Amount of Fair Value Hedge Adjustment Included in the Carrying Amount of the Hedged Asset	
	March 31, 2026	June 30, 2025	March 31, 2026	June 30, 2025

The amount of gain, excluded from effectiveness testing, reclassified from AOCL into income for the nine months ended March 31, 2026 and 2025 was \$331 and \$351, respectively.

### Non-Designated Hedges

Derivatives not designated as hedges are not speculative and are used to manage the Company's exposure to interest rate movements and other identified risks but do not meet the strict hedge accounting requirements and/or the Company has not elected to apply hedge accounting. Changes in the fair value of derivatives not designated in hedging relationships are recorded directly in earnings.

During the nine months ended March 31, 2026, the Company entered into auto-cancellable Target Redemption Forward ("TARF") contracts to buy up to €13,800, as part of its strategy to manage exposure to certain Euro-denominated liabilities across 13 defined bi-weekly fixed ranges over a six-month period from January 2026 to June 2026. During the three months ended March 31, 2026, the Company recorded a loss of \$44 on such TARF contracts, which is included in other expense, net in the consolidated statements of operations.

## 16. RESTRUCTURING PROGRAM

During the first quarter of fiscal year 2024, the Company began a multi-year restructuring program (the “Restructuring Program”) and incurred charges related to contract terminations, asset write-downs, employee-related costs, and other transformation-related expenses.

For the three months ended March 31, 2026, expenses associated with the Restructuring Program in the amount of \$4,066, \$726 and \$10 were recorded in productivity and transformation costs, cost of sales and long-lived asset and intangibles impairment, respectively, on the consolidated statements of operations. For the three months ended March 31, 2025, expenses associated with the Restructuring Program in the amount of \$7,289 and \$379 were recorded in productivity and transformation costs and cost of sales, respectively, on the consolidated statements of operations.

For the nine months ended March 31, 2026, expenses associated with the Restructuring Program in the amount of \$16,061, \$6,009 and \$10 were recorded in productivity and transformation costs, cost of sales and long-lived asset and intangibles impairment, respectively, on the consolidated statements of operations. For the nine months ended March 31, 2025, expenses associated with the Restructuring Program in the amount of \$16,497, \$2,285, and \$1,613 were recorded in productivity and transformation costs, long-lived asset and intangibles impairment, and cost of sales, respectively, on the consolidated statements of operations.

The table below sets forth expenses associated with the Restructuring Program for the three- and nine-month periods ended March 31, 2026 and March 31, 2025 by reportable segments and Corporate and Other.

	Three Months Ended		Nine Months Ended	
	March 31, 2026	March 31, 2025	March 31, 2026	March 31, 2025

<sup>(1)</sup> Employee-related costs include \$833 of severance related to executive officer succession.

<sup>(2)</sup> Represents non-cash asset write-downs including asset impairment and accelerated depreciation.

<sup>(3)</sup> Other transformation-related expenses primarily include consultancy charges related to reorganization of global functions and related personnel resource requirements, and rationalizing sourcing and supply chain processes.

## 17. COMMITMENTS AND CONTINGENCIES

### *Securities Class Actions Filed in Federal Court*

The Company and certain of its former officers (collectively, the “Defendants”) are defendants in a consolidated class action complaint in the Eastern District of New York under the caption In re The Hain Celestial Group, Inc. Securities Litigation (the “Consolidated Securities Action”). A Corrected Consolidated Amended Complaint was filed in the summer of 2017, which asserted violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 based on allegedly materially false or misleading statements and omissions in public statements, press releases and SEC filings regarding the Company’s business, prospects, financial results and internal controls.

After Defendants’ initial motion to dismiss was granted without prejudice to replead in October 2017, the Co-Lead Plaintiffs filed a Second Amended Consolidated Class Action Complaint on May 6, 2019 (the “Second Amended Complaint”), which made allegations similar to those in the previous complaint. After several years of motion practice and related court orders, on September 29, 2023, the District Court granted Defendants’ Motion to Dismiss the Second Amended Complaint. Co-Lead Plaintiffs filed a notice of appeal on October 26, 2023, appealing the District Court’s decision dismissing the Second Amended Complaint to the Second Circuit, and the appeal was fully briefed as of June 3, 2024. On September 29, 2025, the Second Circuit reversed and remanded the matter for further proceedings. The matter is now proceeding in the District Court and the Company answered the Second Amended Complaint on January 27, 2026. On May 4, 2026, the parties entered into a binding term sheet to settle the Consolidated Securities Action for \$35,000, to be funded solely by insurance. The binding term sheet expressly provides that Defendants make no admission of liability or wrongdoing and that each Defendant denies all wrongdoing. Further, the term sheet states that the settlement amount will be funded solely by insurance and that no part of the settlement amount will be funded by the Company or any individual defendant. The settlement remains subject to execution of a formal stipulation of settlement and final Court approval. As of March 31, 2026, the Company recorded an insurance receivable of \$35,000 within prepaid expenses and other current assets and a corresponding liability of \$35,000 within accrued expenses and other current liabilities in the consolidated balance sheet.

### *Additional Stockholder Class Action and Derivative Complaints Filed in Federal Court*

The former Board of Directors and certain former officers of the Company are defendants in a consolidated action, originally filed in 2017 in the Eastern District of New York, under the caption In re The Hain Celestial Group, Inc. Stockholder Class and Derivative Litigation (the “Consolidated Stockholder Class and Derivative Action”). The plaintiffs allege that the Company’s former directors and certain former officers made materially false and misleading statements in press releases and SEC filings regarding the Company’s business, prospects and financial results and that the Company violated its by-laws and Delaware law by failing to hold its 2016 Annual Stockholders Meeting and claim breach of fiduciary duty, unjust enrichment and corporate waste.

After several years of motion practice and related court orders in the related Consolidated Securities Action, on July 24, 2020, the plaintiffs made a stockholder litigation demand on the Board containing overlapping factual allegations to those set forth in the Consolidated Stockholder Class and Derivative Action. On November 3, 2020, Plaintiffs were informed that the Board had finished investigating and resolved, among other things, that the demand should be rejected. In light of developments in the Consolidated Securities Action referenced above that remanded that case for further proceedings, the parties submitted a joint status report on December 29, 2021 requesting that the District Court continue the temporary stay pending the District Court’s reconsideration of the Defendants’ motion to dismiss the Second Amended Complaint in the Consolidated Securities Action. Following the Second Circuit’s reversal and remand on September 29, 2025, the Parties filed a status update on November 14, 2025 and an initial proposed scheduling order on February 6, 2026. On April 30, 2026, the plaintiffs filed a Motion for Leave to File the Verified Consolidated Second Amended Shareholder Derivative Complaint under seal, together with their Amended Complaint. On May 1, 2026, the Court granted the motion to file under seal. The parties must jointly file a proposed case management schedule by May 14, 2026.

*Baby Food Class Action Litigation*

Since February 2021, the Company has been named in numerous consumer class actions alleging that the Company's Earth's Best® baby food products (the "Products") contain unsafe and undisclosed levels of various naturally occurring heavy metals, namely lead, arsenic, cadmium and mercury. Those actions were transferred and consolidated as a single lawsuit in the U.S. District Court for the Eastern District of New York captioned *In re Hain Celestial Heavy Metals Baby Food Litigation*, Case No. 2:21-cv-678 (the "Consolidated Proceeding"). In the Consolidated Proceeding, the plaintiffs generally allege that the Company violated various state consumer protection laws and assert other state and common law warranty and unjust enrichment claims related to the alleged failure to disclose the presence of these metals, arguing that consumers would have either not purchased the Products or would have paid less for them had the Company made adequate disclosures. The Company filed a motion to dismiss the Consolidated Class Action Complaint. Following oral argument on August 1, 2024, the Court issued an order on December 27, 2024 in which it granted the Company's motion to dismiss with respect to Plaintiffs' claims arising out of the alleged presence of lead, cadmium, mercury, or other substances, as well as any claims challenging the use of the "USDA Organic" seal on the Products' labeling, and denied the Company's motion to dismiss with respect to Plaintiffs' claims arising out of the alleged presence of arsenic in the Products. The Company filed its answer to the Consolidated Class Action Complaint on January 23, 2025. One consumer class action is pending in New York Supreme Court, Nassau County, which the court has stayed in deference to the Consolidated Proceeding. The Company denies the allegations in these lawsuits and contends that its baby foods are safe and properly labeled.

The claims raised in these lawsuits were brought in the wake of a highly publicized report issued by the U.S. House of Representatives Subcommittee on Economic and Consumer Policy on Oversight and Reform, dated February 4, 2021 (the "House Report"), addressing the presence of heavy metals in baby foods made by certain manufacturers, including the Company. Since the publication of the House Report, the Company has also received information requests with respect to the advertising and quality of its baby foods from certain governmental authorities, as such authorities investigate the claims made in the House Report. The Company is fully cooperating with these requests and has provided documents and other requested information.

The Company has been named in one civil government enforcement action, *State of New Mexico ex rel. Balderas v. Nurture, Inc., et al.*, which was filed by the New Mexico Attorney General against the Company and several other manufacturers based on the alleged presence of heavy metals in their baby food products. The Company and several other manufacturers moved to dismiss the New Mexico Attorney General's lawsuit, and the Court denied that motion. The Company filed its answer to the New Mexico Attorney General's amended complaint on April 23, 2022, and discovery is ongoing. The Company denies the New Mexico Attorney General's allegations and maintains that its baby foods are safe, properly labeled, and compliant with New Mexico law.

In addition to the consumer class actions discussed above, the Company is currently named in numerous lawsuits in state and federal courts alleging some form of personal injury from the ingestion of the Company's Products, purportedly due to unsafe and undisclosed levels of various naturally occurring heavy metals. These lawsuits generally allege injuries related to neurological development disorders such as autism and attention deficit hyperactivity disorder.

*Baby Food Multidistrict Litigation*

On January 4, 2024, plaintiffs in federal cases across the country filed a Motion to Transfer Actions for Coordinated or Consolidated Pretrial Proceedings. On April 11, 2024, the United States Judicial Panel on Multidistrict Litigation granted plaintiffs' motion and transferred the cases to the Northern District of California for coordinated or consolidated pretrial proceedings. On April 15, 2024, the court issued an order staying all outstanding discovery proceedings and pending motions and vacating all previously scheduled hearing dates. There are approximately 200 federal cases filed against the Company pending in the multi-district litigation ("MDL"). Plaintiffs filed their Master Complaint on July 15, 2024. On December 18, 2024, Defendants filed motions to dismiss the Master Complaint, which the Court granted in part and denied in part. The MDL first proceeded with general causation discovery. Expert discovery has closed, and the parties' Rule 702 motions have been fully briefed. The Court held Rule 702 hearings during the week of December 8, 2025; on February 27, 2026, the Court issued an order excluding Plaintiffs' general causation experts. On May 1, 2026, Defendants filed a motion for summary judgment.

*Baby Food California State Court Cases*

There are currently 13 personal injury cases against the Company pending in California State Superior Courts relating to the same allegations regarding trace levels of heavy metals in the Products. These cases are now (or will be) included in Judicial Council Coordinated Proceedings (“JCCP”). In June 2024, the cases were assigned a trial coordination judge. All but two of the cases are currently stayed.

In *Landon R. v. The Hain Celestial Group, Inc., et al.*, No. 23STCV24844, the Court granted defendants’ Motion to Exclude Plaintiff’s Exposure Expert and Defendants’ Motion for Summary Judgment. Plaintiff filed a Notice of Appeal on March 2, 2026.

On September 30, 2025, the Court lifted the discovery and pleading stay in two additional cases: *Kaleb R. v. Hain Celestial Group, Inc. et al.* (No. 23STCV30542) and *Samuel R. v. Hain Celestial Group, Inc. et al.* (No. 23CV057126). Discovery is ongoing in both cases.

#### *Palmquist v. The Hain Celestial Group*

During a jury trial in February 2023 in the baby food-related matter *Palmquist v. The Hain Celestial Group, Inc.*, the court granted the Company’s motion for a directed verdict, finding no liability for the Company. The Court entered Final Judgment in the Company’s favor on March 3, 2023.

Plaintiffs appealed in the Fifth Circuit, and on May 28, 2024, the Fifth Circuit reversed the district court’s order denying Plaintiff’s motion to remand the case and vacated the final judgement of the district court. The Company filed a Petition for En Banc Reconsideration, which the Fifth Circuit denied.

The Company successfully petitioned the United States Supreme Court for a writ of certiorari, and the Supreme Court heard oral argument on November 4, 2025. On February 24, 2026, the Supreme Court issued an opinion affirming the Fifth Circuit’s decision to vacate the judgment in favor of Hain and remand the proceedings to state court to be re-tried.

The case is now pending in the District Court of Brazoria County, Texas. Discovery is ongoing.

#### *Baby Food Florida State Court Cases*

There are currently two multi-plaintiff personal injury cases against the Company pending in Florida State Courts relating to the same allegations regarding trace levels of heavy metals in the Products.

With respect to all of the above-described baby food matters, the Company denies that its Products led to any of the alleged injuries and will defend these cases vigorously. That said, as is common in circumstances of this nature, additional lawsuits may be filed against the Company in the future, asserting similar or different legal theories and seeking similar or different types of damages and relief. Such lawsuits may be resolved in a manner adverse to us, and we may incur substantial costs or damages not covered by insurance, which could have a material adverse effect on our financial condition and business.

#### *Other*

In addition to the matters described above, the Company is and may be a defendant in lawsuits from time to time in the normal course of business.

With respect to all litigation and related matters, the Company records a liability when the Company believes it is probable that a liability has been incurred and the amount can be reasonably estimated. As of the end of the period covered by this report, the Company has not recorded a liability for any of the matters disclosed in this note, except for the above-noted liability and offsetting insurance receivable in connection with the proposed settlement of the Consolidated Securities Action, which is to be funded solely by insurance. It is possible that some matters could require the Company to pay damages, incur other costs or establish accruals in amounts that could not be reasonably estimated as of the end of the period covered by this report.

## 18. SEGMENT INFORMATION

The Company's organizational structure consists of two geographic based reportable segments: North America and International, which are also the operating segments. This structure is in line with how the Company's Chief Operating Decision Maker ("CODM") assesses the Company's performance and allocates resources. The President and Chief Executive Officer is the CODM of the Company. The Company's measure of segment profitability is Adjusted EBITDA and the CODM also uses net sales in order to analyze segment results and trends to allocate resources. On a monthly basis, the CODM reviews how actual results compare to forecasts and prior periods when making decisions regarding strategic initiatives and capital investments to segments.

Segment Adjusted EBITDA excludes: net interest expense, income taxes, depreciation and amortization, equity in net loss of equity-method investees, stock-based compensation, net, unrealized currency losses, proceeds from insurance claim, certain litigation and related costs, plant closure related costs, net, productivity and transformation costs, warehouse/manufacturing consolidation and other costs, net, costs associated with acquisitions, divestitures and other transactions, loss (gain) on sale of assets, impairment of goodwill, long-lived asset and intangibles impairments and other adjustments. In addition, Segment Adjusted EBITDA does not include Corporate and Other expenses related to the Company's centralized administrative functions, which do not specifically relate to a reportable segment. Such Corporate and Other expenses are comprised mainly of compensation and related expenses of certain of the Company's senior executive officers and other employees who perform duties related to the entire enterprise, litigation expense and expenses for certain professional fees, facilities, and other items which benefit the Company as a whole.

## [Table of Contents](#)

The following tables set forth financial information about each of the Company's reportable segment's revenue, significant segment expenses and measure of segment profit or loss for the three and nine months ended March 31, 2026 and 2025. Information about total assets by segment is not disclosed because such information is not reported to or used by the Company's CODM for purposes of assessing segment performance or allocating resources. Transactions between reportable segments were insignificant for all periods presented.

## Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

*This Management’s Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Consolidated Financial Statements and the related Notes thereto for the period ended March 31, 2026 contained in this Quarterly Report on Form 10-Q and our Annual Report on Form 10-K for the fiscal year ended June 30, 2025. Forward-looking statements in this Form 10-Q are qualified by the cautionary statement included in this Form 10-Q under the heading “Forward-Looking Statements” in the introduction of this Form 10-Q.*

### Overview

The Hain Celestial Group, Inc., a Delaware corporation (collectively with its subsidiaries, the “Company,” “Hain Celestial,” “we,” “us” or “our”), was founded in 1993. Hain Celestial is a leading global health and wellness company whose purpose is to inspire healthier living for people, communities and the planet through better-for-you brands. For more than 30 years, Hain Celestial has intentionally focused on delivering nutrition and well-being that positively impacts today and tomorrow. Headquartered in Hoboken, N.J., Hain Celestial’s products across beverages, yogurt, baby/kids and meal preparation are marketed and sold in over 70 countries around the world. The Company operates under two reportable segments: North America and International.

The Company’s leading brands include Celestial Seasonings® teas, The Greek Gods® yogurt, Earth’s Best® Organic and Ella’s Kitchen® baby and kids foods, Joya® and Natumi® plant-based beverages, Hartley’s® jelly, as well as Cully & Sully®, Yorkshire Provender®, and New Covent Garden® soups, among others.

### Strategic Review

We are focused on five actions to win in the marketplace and drive growth: aggressively streamlining our portfolio, accelerating brand renovation and innovation, implementing price increases along with broader revenue growth management, driving productivity and working capital efficiency, and enhancing our digital capabilities, inclusive of ecommerce.

During the fourth quarter of fiscal year 2025, we announced that our Board of Directors was conducting a comprehensive review of the Company’s portfolio with the assistance of our independent financial advisor.

As part of this review, on February 27, 2026, we completed the sale (the “Transaction”) of our North American Snacks business, including Garden Veggie Snacks™, Terra® chips and Garden of Eatin’® snacks as well as certain private label products (the “North American Snacks Business”) and received \$111.2 million in cash, reflecting the total purchase price of \$115.0 million less the holdback of an estimate for a customary inventory adjustment, which is subject to finalization following the closing. We used the net proceeds of \$101.1 million from the Transaction to pay down debt. The Transaction represents an important first step in our broader strategic review, as it reduced leverage while enabling us to focus on a more concentrated portfolio of core assets to drive growth.

### ***Restructuring Program***

During the first quarter of fiscal year 2024, the Company began a multi-year restructuring program (the “Restructuring Program”), to improve profitability and support future growth and incurred charges related to contract terminations, asset write-downs, employee-related costs, and other transformation-related expenses.

Cumulative pretax charges associated with the Restructuring Program are expected to be \$115 million - \$125 million which represents an increase of \$15 million from the previously reported range, primarily due to incremental restructuring actions expected to be incurred in connection with the sale of the North American Snacks Business. The Restructuring Program is expected to conclude by fiscal year 2027. For the three and nine months ended March 31, 2026, we incurred pretax charges of \$4.8 million and \$22.1 million respectively, associated with the Restructuring Program, compared to approximately \$7.7 million and \$20.4 million respectively, in the corresponding periods of the prior year.

Annualized pretax savings are expected to be \$130 million - \$150 million. The gross savings to date reflect operating model savings, productivity delivery and benefits from revenue growth management initiatives, offset by volume deleveraging and input cost inflation.

### ***Global Economic Environment***

Inflation volatility, changes in interest rates, evolving fiscal and monetary policies, global supply chain constraints, and changes in U.S. and international trade restrictions and tariffs continue to create economic uncertainty and cost pressures across global markets.

Geopolitical tensions, including the conflict in Iran that began in February 2026, have disrupted and could continue to disrupt global energy supply-demand dynamics, contributing to commodity price volatility and broader uncertainty. These conditions could adversely affect energy prices, transportation routes, logistics and insurance costs, global supply chains, input costs, and consumer spending patterns, which could impact our operating results, liquidity, and cash flows if such conditions persist or escalate. We continue to monitor the evolving macroeconomic and geopolitical environment and assess potential impacts on our business.

## Comparison of Three Months Ended March 31, 2026 to Three Months Ended March 31, 2025

### Consolidated Results

The following table compares our results of operations, including as a percentage of net sales, on a consolidated basis, for the three months ended March 31, 2026 and 2025 (dollars in thousands, other than per share amounts and percentages, which may not add due to rounding):

### Net Sales

Net sales for the three months ended March 31, 2026 were \$338.4 million, a decrease of \$52.0 million, or 13.3%, including a reduction of \$48.3 million, or 10.8%, related to divestitures, held for sale businesses, discontinued brands and exited product categories primarily due to sale of the North American Snacks Business and a favorable impact of \$12.5 million, or 3.2%, from foreign exchange, as compared to the prior year quarter. Organic net sales, defined as net sales adjusted to exclude the impact of foreign exchange, acquisitions, divestitures, held for sale businesses, discontinued brands and exited product categories, decreased \$16.2 million, or 5.7%, from the prior year quarter. The decrease in organic net sales was due to a decline in both the North America and International reportable segments.

Additionally, the decrease in organic net sales comprised a 10.6% decrease in volume/mix, partially offset by a 4.9% increase in pricing primarily reflecting promotional activity. Further details of changes in net sales by segment are provided below in the *Segment Results* section.

### Gross Profit

Gross profit for the three months ended March 31, 2026 was \$70.4 million, a decrease of \$14.3 million, or 16.8%, as compared to the prior year period. Gross profit margin of 20.8% for the three months ended March 31, 2026 was lower when compared with 21.7% in the prior year period, representing a 90-basis point decrease.

The decrease in gross profit was driven by both the North America and International reportable segments. The decrease in the North America reportable segment was mainly due to lower sales volume, partially offset by favorable pricing. The decline in the International reportable segment was mainly driven by lower sales volume, partially offset by productivity savings.

#### Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$59.1 million for the three months ended March 31, 2026, a decrease of \$3.9 million, or 6.1%, from \$62.9 million for the prior year quarter. The decrease was primarily driven by a reduction in employee-related expenses.

#### Goodwill Impairment

During the three months ended March 31, 2026, the Company recognized a non-cash goodwill impairment charge of \$31.0 million related to its U.K. reporting unit. During the three months ended March 31, 2025, the Company recorded aggregate non-cash goodwill impairment charges of \$110.3 million within the North America segment related to its U.S. and Canada reporting units. See Note 9, *Goodwill and Intangible Assets*, and Note 14, *Fair Value Measurements*, in the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

#### Long-Lived Asset and Intangibles Impairment

During the three months ended March 31, 2026, the Company recorded non-cash impairment charges of \$12.4 million, primarily related to a reduction in the estimated fair value of the personal care assets held for sale. See Note 4, *Assets and Liabilities Held for Sale*, in the Notes of the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q. During the three months ended March 31, 2026, the Company also recognized aggregate non-cash impairment charges of \$2.0 million primarily related to Earth's Best<sup>®</sup> Organic indefinite-lived tradename. See Note 9, *Goodwill and Other Intangible Assets*, in the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

During the three months ended March 31, 2025, the Company recorded non-cash impairment charges of \$24.0 million, primarily related to the personal care assets held for sale. See Note 4, *Assets and Liabilities Held for Sale* in the Notes of the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

#### Productivity and Transformation Costs

Productivity and transformation costs were \$4.1 million for the three months ended March 31, 2026, a decrease of \$3.2 million, or 44.2%, from \$7.3 million in the prior year quarter. The decrease primarily reflected a reduction in restructuring costs incurred in connection with the Restructuring Program.

#### Amortization of Acquired Intangible Assets

Amortization of acquired intangibles was \$3.3 million for the three months ended March 31, 2026 compared to \$1.2 million for the prior year quarter. During the three months ended March 31, 2026, the useful life for certain meal preparation category tradenames (namely, Hartley's<sup>®</sup> Jelly and Spectrum<sup>®</sup> culinary oils, vinegars and condiments) and the trademark for the baby and kids category brand, Ella's Kitchen<sup>®</sup> baby and kids foods was changed from indefinite to definite.

#### Operating Loss

Operating loss for the three months ended March 31, 2026 was \$42.1 million compared to operating loss of \$121.1 million in the prior year quarter as a result of the items described above.

Interest and Other Financing Expense, Net

Interest and other financing expense, net totaled \$13.9 million for the three months ended March 31, 2026, an increase of \$2.0 million, or 17.3%, from \$11.9 million in the prior year quarter. The increase resulted primarily from a higher interest rate spread as well as increased amortization of deferred financing fees related to the May 2025 and September 2025 amendments to our Credit Agreement, as defined below, and a write-off of \$0.5 million of deferred financing fees in connection with the \$101.1 million repayment of the Term Loans, partially offset by lower outstanding debt balance compared to the prior year period. See Note 10, *Debt and Borrowings*, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

Other Expense, Net

Other expense, net totaled \$49.5 million for the three months ended March 31, 2026 compared to \$1.2 million in the prior year quarter. The change was primarily due to the recognition of a pretax loss of \$50.8 million on the sale of the North American Snacks Business in the third quarter of fiscal 2026.

Loss Before Income Taxes and Equity in Net Loss of Equity-Method Investees

Loss before income taxes and equity in net loss of our equity-method investees for the three months ended March 31, 2026 was \$105.6 million compared to \$134.1 million in the prior year quarter. The decrease in the loss before income taxes and equity in net loss of our equity-method investees was due to the items discussed above.

Provision (Benefit) for Income Taxes

The provision (benefit) for income taxes includes federal, foreign, state and local income taxes. Our income tax expense was \$0.8 million for the three months ended March 31, 2026 compared to income tax benefit of \$0.5 million in the prior year quarter.

The effective income tax rate was an expense of 0.7% and a benefit of 0.4% for the three months ended March 31, 2026 and 2025, respectively. The income tax expense for the three months ended March 31, 2026 reflected foreign tax expense in certain jurisdictions, impairment of goodwill and intangibles, the sale of the North American Snacks Business and movement in the valuation allowance for both federal and state income taxes. The effective income tax rate for the three months ended March 31, 2025 was impacted by tax expense in certain jurisdictions, impairment of goodwill and personal care intangibles and movement in the valuation allowances for both federal and state income taxes.

Equity in Net Loss of Equity-Method Investees

Equity in net loss from our equity-method investments for the three months ended March 31, 2026 decreased by \$1.0 million compared to \$1.0 in the prior year quarter.

Net Loss

Net loss for the three months ended March 31, 2026 was \$106.3 million, or \$1.17 per diluted share, compared to \$134.6 million, or \$1.49 per diluted share, in the prior year quarter. The decrease in net loss was attributable to the factors noted above.

Adjusted EBITDA

Adjusted EBITDA was \$26.3 million and \$33.6 million for the three months ended March 31, 2026 and 2025, respectively, as a result of the factors discussed above. See *Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures* following the discussion of our results of operations for definitions and a reconciliation of our net loss to Adjusted EBITDA.

See the *Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures* following the discussion of our results of operations and Note 18, *Segment Information*, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q for a reconciliation of segment Adjusted EBITDA.

### North America

Our net sales in the North America reportable segment for the three months ended March 31, 2026 were \$171.5 million, a decrease of \$50.9 million, or 22.9%, including a reduction of \$48.0 million, or 20.3%, related to divestitures, held for sale businesses, discontinued brands and exited product categories, as compared to the prior year quarter. Organic net sales decreased \$3.2 million, or 2.7%, to \$113.7 million from \$116.9 million in the prior year quarter.

The decrease in net sales was primarily due to lower sales in the snacks, meal preparation and baby & kids categories. The decrease in organic net sales was primarily due to lower sales in the baby & kids category, partially offset by growth in the beverages category. The decrease in the baby & kids category was driven by volume softness in purees and formula, partially offset by growth in The Greek Gods<sup>®</sup> yogurt.

Adjusted EBITDA for the three months ended March 31, 2026 was \$17.2 million, a slight decrease of \$0.1 million, or 0.8%, from Adjusted EBITDA of \$17.3 million in the prior year quarter. The decrease was primarily driven by lower volume/mix and cost inflation, nearly offset by SG&A, pricing and productivity savings. Adjusted EBITDA margin was 10.0%, a 220-basis point increase from the prior year period.

### International

Our net sales in the International reportable segment for the three months ended March 31, 2026 were \$166.9 million, a decrease of \$1.1 million, or 0.6%, including a favorable impact of \$12.2 million, or 7.3%, related to foreign exchange, as compared to the prior year quarter. Organic net sales decreased \$13.0 million, or 7.8%, to \$153.7 million from \$166.8 million the prior year quarter.

The decrease in net sales was primarily due to lower sales in the baby & kids and snacks categories, partially offset by an increase in the beverage category. The decrease in organic net sales was primarily due to decreases in the meal preparation and baby & kids categories. The decrease in the meal preparation category was due to weak soup performance across brands and volume

softness in meat alternatives and private label spreads and drizzles. The decrease in the baby & kids category was primarily driven by continued industry-wide volume softness in purees in the U.K.

Adjusted EBITDA for the three months ended March 31, 2026 was \$19.6 million, a decrease of \$2.6 million, or 11.7%, from Adjusted EBITDA of \$22.2 million in the prior year quarter. The decrease was primarily driven by cost inflation and lower volume/mix, partially offset by productivity savings and pricing. Adjusted EBITDA margin was 11.7%, a 150-basis point decrease from the prior year period.

#### Corporate and Other

The increase in Corporate and Other expenses primarily due to timing of incentive reserves.

Refer to Note 18, *Segment Information*, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

### Net Sales

Net sales for the nine months ended March 31, 2026 were \$1,090.4 million, a decrease of \$106.1 million, or 8.9%, including a reduction of \$104.9 million, or 7.9%, related to divestitures, held for sale businesses, discontinued brands and exited product categories and a favorable impact of \$28.2 million, or 2.4%, from foreign exchange, as compared to the prior year period. Organic net sales decreased \$29.3 million, or 3.4%, from the prior year period. The decrease in net sales was primarily due to a decline in the North America reportable segment. The decrease in organic net sales was due to declines in both the North America and International reportable segments. Additionally, the decrease in organic net sales was comprised of a 6.7% decrease in volume/mix and a 3.3% increase in price. Further details of changes in net sales by segment are provided below in the *Segment Results* section.

### Gross Profit

Gross profit for the nine months ended March 31, 2026 was \$212.9 million, a decrease of \$46.8 million, or 18.0%, as compared to the prior year period. The gross profit margin of 19.5% was lower for the nine months ended March 31, 2026, when compared with 21.7% in the prior year period.

The decrease in gross profit was driven by both the North America and International reportable segments. The decrease in the North America reportable segment was mainly due to lower sales volume and unfavorable product mix, partially offset by favorable pricing and trade efficiencies. The International reportable segment had a decrease in gross profit mainly due to cost inflation and lower sales volume, partially offset by favorable product mix.

### Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$185.5 million for the nine months ended March 31, 2026, a decrease of \$18.9 million, or 9.3%, from \$204.4 million for the prior year period. The decrease was primarily due to lower compensation-related expenses and non-employee-related cost discipline, as the Company continued implementing overhead reduction actions.

### Goodwill Impairment

During the nine months ended March 31, 2026, the Company recognized aggregate non-cash goodwill impairment charges of \$150.9 million related to its U.S. and U.K. reporting units. During the nine months ended March 31, 2025, the Company recorded aggregate non-cash goodwill impairment charges of \$201.5 million within the North America segment related to its U.S. and Canada reporting units. See Note 9, *Goodwill and Intangible Assets*, and Note 14, *Fair Value Measurements*, in the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

### Long-Lived Asset and Intangibles Impairment

During the nine months ended March 31, 2026, the Company recorded non-cash impairment charges of \$11.4 million, primarily related to the personal care assets held for sale. See Note 4, *Assets and Liabilities Held for Sale*, in the Notes of the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q. Further, during the nine months ended March 31, 2026, the Company recorded a non-cash impairment charge of \$11.9 million related to the Hartley's® jelly indefinite-lived intangible asset and \$2.0 million related to Earth's Best® Organic indefinite-lived tradename. See Note 9, *Goodwill and Other Intangible Assets*, in the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

During the nine months ended March 31, 2025, the Company recorded a non-cash impairment charge of \$42.0 million, primarily related to the personal care assets held for sale and indefinite and definite-lived intangible assets associated with its personal care business. See Note 4, *Assets and Liabilities Held for Sale*, and Note 9, *Goodwill and Other Intangible Assets*, in the Notes of the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

### Productivity and Transformation Costs

Productivity and transformation costs were \$17.5 million for the nine months ended March 31, 2026, an increase of \$1.0 million, or 6.2%, from \$16.5 million in the prior year period. The increase was primarily due to higher costs incurred in connection with the Restructuring Program.

#### Amortization of Acquired Intangible Assets

Amortization of acquired intangibles was \$5.7 million for the nine months ended March 31, 2026, an increase of \$0.5 million from \$5.2 million in the prior year period. During the nine months ended March 31, 2026, the useful life for certain International meal prep tradenames, (namely, Hartley's<sup>®</sup> Jelly and Spectrum<sup>®</sup> culinary oils, vinegars and condiments) and the trademark for the baby and kids category brand, Ella's Kitchen<sup>®</sup> baby and kids foods, was changed from indefinite to definite.

#### Proceeds from Insurance Claim

Proceeds from insurance claim was \$25.9 million for the nine months ended March 31, 2026 on account of the recognition of a Representation & Warranty ("R&W") insurance receivable related to a prior acquisition, which was collected on January 2, 2026.

#### Operating Loss

Operating loss for the nine months ended March 31, 2026 was \$147.8 million compared to \$209.9 million in the prior year period as a result of the items described above.

#### Interest and Other Financing Expense, Net

Interest and other financing expense, net totaled \$45.1 million for the nine months ended March 31, 2026, an increase of \$6.7 million, or 17.3%, from \$38.4 million in the prior year period. The increase resulted primarily from a higher interest rate spread as well as increased amortization of deferred financing fees related to the May 2025 and September 2025 amendments to our Credit Agreement, as defined below, partially offset by lower outstanding debt balance compared to the prior year period. See Note 10, *Debt and Borrowings*, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

#### Other Expense, Net

Other expense, net totaled \$47.9 million for the nine months ended March 31, 2026, compared to \$2.4 million of other income, net in the prior year period. The change was primarily due to a pretax loss of \$50.8 million on the sale of North American Snacks Business.

#### Loss Before Income Taxes and Equity in Net Loss of Equity-Method Investees

Loss before income taxes and equity in net loss of our equity-method investees was \$240.8 million for the nine months ended March 31, 2026, compared to a \$250.8 million loss in the prior year period. The increase in the loss before income taxes and equity in net loss of our equity-method investees was due to the items discussed above.

#### Provision for Income Taxes

The provision for income taxes includes federal, foreign, state and local income taxes. Our income tax provision was \$1.9 million for the nine months ended March 31, 2026 compared to income tax expense of \$5.7 million in the prior year comparable period.

The effective income tax rate was an expense of 0.8% and an expense of 2.3% for the nine months ended March 31, 2026 and 2025, respectively. The income tax provision for the nine months ended March 31, 2026 reflected foreign tax expense in certain jurisdictions, the sale of the North American Snacks Business, the receipt of the R&W insurance payout related to a prior acquisition, impairment of goodwill and intangibles and movement in the valuation allowance for both federal and state income taxes. The effective income tax rate for the nine months ended March 31, 2025 was impacted by tax expense in certain jurisdictions, impairment of goodwill and personal care intangibles and movement in the valuation allowances for both federal and state income taxes.

Equity in Net Loss of Equity-Method Investees

Equity in net loss from our equity-method investments for the nine months ended March 31, 2026 was a loss of \$0.3 million compared to a \$1.7 million loss in the prior year period.

Net Loss

Net loss for the nine months ended March 31, 2026 was \$243.0 million, or \$2.68 per diluted share, compared to \$258.2 million, or \$2.87 per diluted share, in the prior year period. The increase in net loss was attributable to the factors noted above.

Adjusted EBITDA

Adjusted EBITDA was \$70.3 million and \$93.9 million for the nine months ended March 31, 2026 and 2025, respectively, as a result of the factors discussed above. See *Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures* following the discussion of our results of operations for definitions and a reconciliation of our net loss to Adjusted EBITDA.

See the *Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures* following the discussion of our results of operations and Note 18, *Segment Information*, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q for a reconciliation of segment Adjusted EBITDA.

North America

Our net sales in the North America reportable segment for the nine months ended March 31, 2026 were \$573.2 million, a decrease of \$109.6 million, or 16.1%, including an unfavorable impact of \$104.2 million, or 14.5%, related to divestitures, held for sale businesses, discontinued brands and exited product categories, as compared to the prior year period. Organic net sales decreased \$5.7 million, or 1.6%, to \$346.3 million from \$352.0 million in the prior year period.

The decrease in net sales was due to lower sales in all categories except for the beverages category, which had higher net sales compared to the prior year period. The decrease in organic net sales was primarily due to lower sales in the baby & kids and meal preparation categories, partially offset by an increase in the beverages category. The baby & kids category organic net sales decline was primarily driven by volume softness in purees and formula. The meal preparation category organic net sales decline was due to velocity challenges and distribution losses of soup and oil brands, partially offset by growth in The Greek Gods<sup>®</sup> yogurt.

Adjusted EBITDA for the nine months ended March 31, 2026 was \$45.1 million, a decrease of \$10.0 million, or 18.1%, from Adjusted EBITDA of \$55.1 million in the prior year period. The decrease was driven by lower volume/mix, cost inflation and unfavorable fixed cost absorption, partially offset by productivity savings and pricing. Adjusted EBITDA margin was 7.9%, a 20-basis point decrease from the prior year period.

#### International

Our net sales in the International reportable segment for the nine months ended March 31, 2026 were \$517.1 million, an increase of \$3.5 million, or 0.7%, including a favorable impact of \$27.9 million or 5.4% related to foreign exchange, as compared to the prior year period. Organic net sales decreased \$23.6 million, or 4.6%, to \$486.1 million from \$509.7 million in the prior year period.

The increase in net sales was primarily due to higher sales in the meal preparation and beverages categories, partially offset by lower sales in the baby & kids category. The decrease in organic net sales was due to lower sales in all categories, especially in the baby & kids and meal preparation categories. The decrease in the baby & kids category was primarily driven by continued industry-wide volume softness in purees in the U.K. The decrease in the meal preparation category was due to weak soup performance across brands and softness in meat alternatives and private label spreads and drizzles.

Adjusted EBITDA for the nine months ended March 31, 2026 was \$51.1 million, a decrease of \$13.9 million, or 21.4%, from Adjusted EBITDA of \$65.1 million in the prior year period. The decrease was primarily due to lower gross profit driven by cost inflation, unfavorable fixed cost absorption and lower volume/mix, partially offset by productivity savings and pricing. Adjusted EBITDA margin was 9.9%, a 280-basis point decrease from the prior year period.

#### Corporate and Other

Corporate and Other expenses remained relatively flat compared to the prior year period.

Refer to Note 18, *Segment Information*, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

#### **Liquidity and Capital Resources**

We finance our operations and growth primarily with the cash flows we generate from our operations and from borrowings available to us under our Credit Agreement (as defined below). We believe that our cash flows from operations and borrowing capacity under our Credit Agreement will be adequate to meet anticipated operating and other expenditures. See Note 2, *Basis of Presentation*, and Note 10, *Debt and Borrowings*, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

As of March 31, 2026, we had \$549,825 of debt obligations maturing on December 22, 2026, consisting of \$401,000 of loans outstanding under the Revolver and \$148,825 of Term Loans (each as defined in Note 10, *Debt and Borrowings*). As of March 31, 2026, we had cash of \$44,311 and available liquidity of \$195,901, subject to compliance with financial covenants, and the Company was in compliance with all associated covenants under its Credit Agreement (see Note 10, *Debt and Borrowings*). On January 2, 2026, the Company received \$25,900 of proceeds from an insurance claim (see Note 18, *Segment Information*), which it used to repay loans outstanding under the Revolver, reducing the Company's outstanding debt obligations. See Note 2, *Basis of Presentation*, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

As discussed in Note 2, *Basis of Presentation*, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q, we announced that our Board of Directors commenced a strategic review of the Company's business and capital structure, in part to evaluate options to improve liquidity and reduce leverage. As part of this review, on February 27, 2026, we completed the sale of our North American Snacks Business and received \$111.2 million in cash. The net proceeds of \$101.1 million were used to repay a portion of the Term Loans.

The Company and the Board of Directors remain focused on executing the next phases of the strategic review and taking decisive actions to strengthen the Company's financial flexibility, improve performance and address the upcoming debt maturity under the Credit Agreement. These actions include the pursuit of further asset sales to refine the Company's operating model with a focus on categories and platforms in key markets. In addition, we are executing targeted inventory and other working capital optimization initiatives designed to improve the Company's cash conversion and enhance liquidity. We also continue to actively engage with our lenders while we evaluate potential strategic transactions.

We believe that the successful execution of these plans will enable us to refinance and/or retire the existing debt prior to its maturity or extend the maturity date under the Credit Agreement. However, Accounting Standards Codification ("ASC") 205-40, "Presentation of Financial Statements - Going Concern" requires that management not conclude that such an outcome is "probable" if, among other factors, the outcome is not within the control of the Company. Accordingly, there is substantial doubt about the Company's ability to continue as a going concern for at least one year following the date of issuance of these financial statements due to the uncertainty regarding the Company's ability to refinance or repay its debt due on December 22, 2026 because no such refinancing, retirement or extension has occurred prior to the issuance of the financial statements. Our ability to continue as a going concern remains subject to successful execution of our strategic plan and securing additional financing, if needed. If we are unable to execute our plans to generate sufficient liquidity, we may not have adequate resources to repay or refinance our debt, which would have a material adverse effect on our financial position and results of operations.

The consolidated financial statements have been prepared assuming that we will continue as a going concern, and no adjustments have been made to the financial statements to reflect the possibility of our inability to meet our debt obligations or continue as a going concern.

#### Amended and Restated Credit Agreement

On December 22, 2021, the Company entered into a Fourth Amended and Restated Credit Agreement (as subsequently amended, the "Credit Agreement"). The Credit Agreement originally provided for senior secured financing of \$1,100.0 million in the aggregate, consisting of (1) \$300.0 million in aggregate principal amount of term loans (the "Term Loans") and (2) an \$800.0 million senior secured revolving credit facility (which includes borrowing capacity available for letters of credit, and was originally comprised of a \$440.0 million U.S. revolving credit facility and \$360.0 million global revolving credit facility) (the "Revolver"). Both the Revolver and the Term Loans mature on December 22, 2026. The Company's obligations under the Credit Agreement are guaranteed by certain existing and future domestic subsidiaries of the Company and are secured by liens on assets of the Company and its material domestic subsidiaries, including the equity interest in each of their direct subsidiaries and intellectual property, subject to agreed-upon exceptions.

The Credit Agreement includes financial covenants that require compliance with a consolidated secured leverage ratio, a consolidated leverage ratio and a consolidated interest coverage ratio. On August 22, 2023, the Company entered into a Second Amendment (the "Second Amendment") to the Credit Agreement. Pursuant to the Second Amendment, the Company's maximum consolidated secured leverage ratio was amended to be 5.00:1.00 until September 30, 2023, 5.25:1.00 until December 31, 2023, 5.00:1.00 until December 31, 2024, and 4.25:1.00 thereafter. See below for a description of the Third Amendment and Fourth Amendment (each as defined below). Following the Fourth Amendment, the Company's maximum consolidated secured leverage ratio under the Credit Agreement was 5.00:1.00 until June 30, 2025 and is 5.50:1.00 for the quarter ending September 30, 2025 and thereafter. Pursuant to the Credit Agreement, the Company's maximum consolidated leverage ratio is 6.00:1.00 and, through June 30, 2025, its minimum interest coverage ratio was 2.50:1.00.

As of March 31, 2026, the Company's consolidated secured leverage ratio, consolidated leverage ratio and consolidated interest coverage ratio were 4.31:1.00, 4.31:1.00 and 2.30:1.00, respectively, and the Company was in compliance with all associated covenants. The aforementioned financial covenants are being reported as calculated under the Credit Agreement and not pursuant to generally accepted accounting principles in the U.S. ("GAAP"). Please refer to the Credit Agreement and amendments filed as exhibits to our periodic reports for further information related to the calculation thereof. For risks related to our indebtedness and compliance with these covenants, please refer to the risk factor "Any default under our credit agreement or inability to refinance our indebtedness could have significant consequences" set forth in Part I, Item 1A, "Risk Factors" of our Form 10-K for the fiscal year ended June 30, 2025.

From the date of the Second Amendment until the date of the Third Amendment, loans under the Credit Agreement bore interest at (a) the Secured Overnight Financing Rate plus a credit spread adjustment of 0.10% (“Term SOFR”) plus 2.5% per annum or (b) the Base Rate (as defined in the Credit Agreement) plus 1.5% per annum.

On May 5, 2025, the Company entered into a Third Amendment (the “Third Amendment”) to the Credit Agreement. Pursuant to the Third Amendment, the Company’s maximum consolidated secured leverage ratio was amended to be 4.75:1.00 for the quarter ending June 30, 2025 through (and including) the quarter ending March 31, 2026, 4.50:1.00 for the quarter ending June 30, 2026, and 4.25:1.00 for the quarter ending September 30, 2026 and thereafter.

Commencing on the date of the Third Amendment, loans under the Credit Agreement bore interest at (a) Term SOFR plus 3.00% per annum or (b) the Base Rate plus 2.00% per annum.

The Third Amendment also reduced the size of the Revolver from \$800.0 million to \$700.0 million in the aggregate, with the U.S. revolving credit facility reduced from \$440.0 million to \$385.0 million and the global revolving credit facility reduced from \$360.0 million to \$315.0 million.

On September 11, 2025, the Company entered into a Fourth Amendment (the “Fourth Amendment”) to the Credit Agreement. Pursuant to the Fourth Amendment, (x) the Company’s maximum consolidated secured leverage ratio was amended to be 5.00:1.00 for the quarter ending June 30, 2025 and 5.50:1.00 for the quarter ending September 30, 2025 and thereafter, (y) the Company’s minimum consolidated interest coverage ratio was amended to be 2.00:1.00 for the quarter ending September 30, 2025 and thereafter and (z) a covenant was added requiring the Company to maintain a minimum Consolidated EBITDA (as such term is defined in the Credit Agreement as amended by the Fourth Amendment) of (i) \$17.0 million for the quarter ending September 30, 2025 and (ii) \$52.0 million for the cumulative two quarters ending September 30, 2025 and on December 31, 2025. The aforementioned financial covenants use financial measures that are defined under the Credit Agreement and not pursuant to GAAP.

Commencing on the date of the Fourth Amendment, loans under the Credit Agreement bear interest at (a) Term SOFR plus 4.00% per annum or (b) the Base Rate plus 3.00% per annum.

The Fourth Amendment also reduced the size of the Revolver from \$700.0 million to \$600.0 million in the aggregate, with the U.S. revolving credit facility reduced from \$385.0 million to \$330.0 million and the global revolving credit facility reduced from \$315.0 million to \$270.0 million.

Excluding the impact of hedges, the weighted average interest rate on outstanding borrowings under the Credit Agreement at March 31, 2026 was 7.74%. The Company uses interest rate swaps to hedge a portion of the interest rate risk related to its outstanding variable rate debt. As of March 31, 2025, the notional amount of the interest rate swaps was \$400,000 with fixed rate payments of 7.12%. Including the impact of hedges, the weighted average interest rate on outstanding borrowings under the Credit Agreement at March 31, 2026 was 7.41%. Additionally, the Credit Agreement contains a commitment fee of 0.25% per annum on the amount unused under the Credit Agreement.

Cash and Cash Equivalents

Our cash and cash equivalents balance decreased by \$10.0 million at March 31, 2026 to \$44.3 million as compared to \$54.4 million at June 30, 2025. Our working capital was negative \$399.0 million at March 31, 2026, a decrease of \$652.0 million from \$252.9 million at the end of fiscal 2025. The decrease was driven by the classification of \$549.8 million of debt obligations, maturing on December 22, 2026, as current. Additionally, our total debt balance, net of unamortized issuance costs, at March 31, 2026 has decreased by \$155.1 million to \$549.1 million as compared to \$704.2 million at June 30, 2025 as a result of net repayments carried out during the period.

Our cash balances are held in the U.S., U.K., Canada, Western Europe, the Middle East and India. As of March 31, 2026, substantially all cash was held outside the U.S. and there are no material restrictions on repatriation.

We maintain our cash and cash equivalents primarily in money market funds or their equivalent. Accordingly, we do not believe that our investments have significant exposure to interest rate risk.

Cash Provided by (Used in) Operating, Investing and Financing Activities

<i>(Dollars in thousands)</i>	<b>Nine Months Ended March 31,</b>		<b>Change in</b>
	<b>2026</b>	<b>2025</b>	<b>Dollars</b>
<b><u>Cash flows provided by (used in):</u></b>			
Operating activities	\$ 66,826	\$ 24,763	\$ 42,063
Investing activities	86,766	(354)	87,120
Financing activities	(159,210)	(36,475)	(122,735)
Effect of exchange rate changes on cash	(4,426)	2,184	(6,610)
Net decrease in cash and cash equivalents	<u>\$ (10,044)</u>	<u>\$ (9,882)</u>	<u>\$ (162)</u>

Cash provided by operating activities was \$66.8 million for the nine months ended March 31, 2026, an increase of \$42.1 million from cash provided by operating activities of \$24.8 million in the prior year period. This increase in cash provided by operating activities versus the prior year period resulted primarily from working capital changes versus the prior year period, reflecting higher cash generation primarily due to focused inventory management, which generated year-over-year improvement of \$70.2 million and an increase in accounts receivable collection of \$19.0 million, partially offset by a reduced benefit from accounts payable and accrued expenses in the amount of \$9.6 million. The changes in other current assets and accounts payable and accrued expenses for the nine months ended March 31, 2026 reflected the recognition of a \$35.0 million insurance receivable and corresponding settlement liability (see Note 17. *Commitments and Contingencies*).

Cash provided by investing activities was \$86.8 million for the nine months ended March 31, 2026, an increase of \$87.1 million from cash used in investing activities of \$0.4 million in the prior year period. The increase in cash provided by investing activities was primarily due to the receipt of proceeds from the 2026 sale of the Company's North American Snacks Business.

Cash used in financing activities was \$159.2 million for the nine months ended March 31, 2026, an increase of \$122.7 million compared to \$36.5 million of cash used in financing activities in the prior year period. The increase in cash used in financing activities was primarily due to higher net debt repayments during the nine months ended March 31, 2026, including the use of \$101.1 million of Transaction proceeds being used to repay a portion of the Term Loan and \$19.5 million of incremental repayments of borrowings under the Revolver.

Free Cash Flow

Our free cash flow was \$50.8 million for the nine months ended March 31, 2026, an increase of \$45.1 million from free cash flow of \$5.7 million in the nine months ended March 31, 2025. The period-over-period change resulted primarily from an increase in cash flows from operations of \$42.1 million driven by the reasons explained above. See Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures following the discussion of our results of operations for definitions and a reconciliation from our net cash provided by operating activities to free cash flow.

### Share Repurchase Program

In January 2022, the Company's Board of Directors authorized the repurchase of up to \$200.0 million of the Company's issued and outstanding common stock. Repurchases may be made from time to time in the open market, pursuant to pre-set trading plans, in private transactions or otherwise. The current 2022 authorization does not have a stated expiration date. The extent to which the Company repurchases its shares and the timing of such repurchases will depend upon market conditions and other corporate considerations. During the nine months ended March 31, 2025, the Company did not repurchase any shares under the repurchase program. As of March 31, 2026, the Company had \$173.5 million of remaining authorization under the share repurchase program.

### ***Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures***

We have included in this report measures of financial performance that are not defined by U.S. GAAP. We believe that these measures provide useful information to investors and include these measures in other communications to investors.

For each of these non-U.S. GAAP financial measures, we are providing below a reconciliation of the differences between the non-U.S. GAAP measure and the most directly comparable U.S. GAAP measure, an explanation of why our management and Board of Directors believe the non-U.S. GAAP measure provides useful information to investors and any additional purposes for which our management and Board of Directors use the non-U.S. GAAP measures. These non-U.S. GAAP measures should be viewed in addition to, and not in lieu of, the comparable U.S. GAAP measures.

### Organic Net Sales

As noted above, we define organic net sales as net sales excluding the impact of acquisitions, divestitures, held for sale businesses, discontinued brands, exited product categories and foreign exchange. To adjust organic net sales for the impact of acquisitions, the net sales of an acquired business are excluded from fiscal quarters constituting or falling within the current period and prior period where the applicable fiscal quarter in the prior period did not include the acquired business for the entire quarter. To adjust organic net sales for the impact of divestitures, held for sale businesses, discontinued brands and exited product categories, the net sales of a divested business, held for sale business, discontinued brand or exited product category are excluded from all periods. To adjust organic net sales for the impact of foreign exchange, current period net sales for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average monthly exchange rates in effect during the corresponding period of the prior fiscal year, rather than at the actual average monthly exchange rate in effect during the current period of the current fiscal year.

A reconciliation between reported net sales and organic net sales is as follows:

<i>(Dollars in thousands)</i>	<b>North America</b>	<b>International</b>	<b>Hain Consolidated</b>

#### Adjusted EBITDA

The Company defines Adjusted EBITDA as net loss before net interest expense, income taxes, depreciation and amortization, equity in net loss of equity-method investees, stock-based compensation, net, unrealized currency losses, proceeds from insurance claim, certain litigation expenses, net, plant closure related costs, net, warehouse and manufacturing consolidation and other costs, net, productivity and transformation costs, costs associated with acquisitions, divestitures and other transactions, losses (gains) on sales of assets, goodwill impairment, long-lived asset and intangibles impairment and other adjustments. The Company's management believes that this presentation provides useful information to management, analysts and investors regarding certain additional financial and business trends relating to its results of operations and financial condition. In addition, management uses this measure for reviewing the financial results of the Company and as a component of performance-based executive compensation. Adjusted EBITDA is a non-U.S. GAAP measure and may not be comparable to similarly titled measures reported by other companies.

We do not consider Adjusted EBITDA in isolation or as an alternative to financial measures determined in accordance with U.S. GAAP. The principal limitation of Adjusted EBITDA is that it excludes certain expenses and income that are required by U.S. GAAP to be recorded in our consolidated financial statements. In addition, Adjusted EBITDA is subject to inherent limitations as this metric reflects the exercise of judgment by management about which expenses and income are excluded or included in

determining Adjusted EBITDA. In order to compensate for these limitations, management presents Adjusted EBITDA in connection with U.S. GAAP results.

A reconciliation of net loss to Adjusted EBITDA is as follows:

### Free Cash Flow

In our internal evaluations, we use the non-GAAP financial measure "Free Cash Flow." The difference between Free Cash Flow and cash flows used in or provided by operating activities, which is the most comparable U.S. GAAP financial measure, is that Free Cash Flow reflects the impact of purchases of property, plant and equipment (capital spending). Since capital spending is essential to maintaining our operational capabilities, we believe that it is a recurring and necessary use of cash. As such, we believe investors should also consider capital spending when evaluating our cash flows provided by or used in operating activities. We view Free Cash Flow as an important measure because it is one factor in evaluating the amount of cash available for discretionary investments. We do not consider Free Cash Flow in isolation or as an alternative to financial measures determined in accordance with U.S. GAAP.

A reconciliation from cash flows provided by operating activities to Free Cash Flow is as follows:

<i>(Dollars in thousands)</i>	<b>Nine Months Ended March 31,</b>	
	<b>2026</b>	<b>2025</b>
Net cash provided by operating activities	\$ 66,826	\$ 24,763

Free Cash Flow	\$ 50,822	\$ 5,703

## Critical Accounting Estimates

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States. The accounting principles we use require us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and amounts of income and expenses during the reporting periods presented. We believe in the quality and reasonableness of our critical accounting policies; however, materially different amounts may be reported under different conditions or using assumptions different from those that we have applied. The accounting policies that have been identified as critical to our business operations and to understanding the results of our operations pertain to variable consideration, valuation of long-lived assets, goodwill and intangible assets, stock-based compensation and valuation allowances for deferred tax assets. The application of each of these critical accounting policies and estimates is discussed in Part II, Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations*, of our Annual Report on Form 10-K for the fiscal year ended June 30, 2025, from which there have been no material changes, except as noted herein.

### *Goodwill*

In each quarter subsequent to our annual impairment assessment, we review events that occur or circumstances that change, including the macroeconomic environment, our business performance and our market capitalization, to determine if a quantitative impairment assessment is necessary. If assumptions are not achieved or market conditions decline, potential impairment charges could result. Impairments to goodwill and other intangible assets may be caused by factors outside our control, such as increasing competitive pricing pressures, changes in discount rates based on changes in cost of capital (i.e., as a result of changes in interest rates or other conditions), lower than expected sales and profit growth rates, changes in industry EBITDA multiples, the inability to quickly replace lost co-manufacturing business, or the bankruptcy of a significant customer, among others.

As of March 31, 2026, the Company performed an assessment of factors to determine whether it was more likely than not that the fair value of each reporting unit within the North America and International reportable segments was less than its respective carrying amount, including goodwill. As a result of a decline in the projected performance and expected future cash flows, the Company completed interim quantitative impairment tests of goodwill for all of its international reporting units: U.K., Western Europe and Ella's Kitchen UK. For the U.S. reporting unit, the Company performed a qualitative evaluation to assess factors to determine whether it is more likely than not that the fair value of the reporting unit is less than its carrying amount, including goodwill, and concluded that the U.S. reporting unit's estimated fair value exceeded its carrying amount.

In performing the quantitative tests for the U.K., Western Europe and Ella's Kitchen UK reporting units, the fair values were estimated using a blended approach of the Discounted Cash Flow ("DCF") method income approach and the Guideline Public Company Methodology ("GPCM") market approach. As of March 31, 2026, the U.K. reporting unit's carrying amount exceeded its estimated fair value of \$227,121, resulting in the recognition of a non-cash impairment charge of \$31,018 to reduce the carrying value of the U.K. reporting unit goodwill to nil. The U.K. reporting unit's impairment charges reflected a decline in sales volume and further compression in Adjusted EBITDA that the Company continued to experience. Aggregate goodwill impairment charges associated with the U.K. and U.S. reporting units were \$112,431 and \$38,495, respectively for the nine months ended March 31, 2026.

As of March 31, 2026, the estimated fair values of the Western Europe, and Ella's Kitchen UK reporting units exceeded their carrying amounts by 9.4% and 117.8%, respectively. The discount rate in the quantitative tests for the Western Europe and Ella's Kitchen UK reporting units also reflected an increase in the small stock premium related to a decline in the Company's market capitalization.

The goodwill related to the U.S. and Western Europe reporting unit remains at risk of potential impairment if the fair values of these reporting units, and their associated assets, decrease in value due to the amount and timing of expected future cash flows, decreased customer demand for products, an inability to execute management's business strategies, or general market conditions, such as economic downturns, and changes in interest rates, including discount rates. Future cash flow estimates are, by their nature, subjective, and actual results may differ materially from the Company's estimates. If the Company's ongoing cash flow projections are not met or if market factors utilized in the impairment test deteriorate, including an unfavorable change in the terminal growth rate or the weighted-average cost of capital, the Company may have to record additional impairment charges in future periods.

As of March 31, 2026, we considered our market capitalization and our net book value and performed a market capitalization reconciliation with the expectation that the market capitalization should reconcile within a reasonable range to the sum of the fair values of the Company's individual reporting units. Upon performing the market capitalization reconciliation, we noted a reasonable reconciliation between the sum of the reporting unit fair values and the Company's market capitalization once adjusted for the impact of corporate costs not allocated to the reporting units. Refer to the critical accounting policies and estimates section included in Part II, Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations*, of our Annual Report on Form 10-K for the fiscal year ended June 30, 2025.

#### *Indefinite-Lived Intangible Assets*

The Company performs an indefinite-lived asset impairment test annually and more frequently if events or changes in circumstances indicate that it is more likely than not that the asset is impaired. In accordance with ASC 350, we may first perform a qualitative assessment to determine whether it is necessary to perform a quantitative impairment test. If an entity elects to perform a qualitative assessment, it first shall assess qualitative factors to determine whether it is more likely than not (that is, a likelihood of more than 50 percent) that an indefinite-lived intangible asset is impaired. One procedure we perform during interim periods to determine whether indicators of impairment are present includes a comparison of net sales used in the most recent quantitative impairment tests to forecasted net sales for the same fiscal year (or balance of the fiscal year when performing an interim review) in order to identify brands for which the current fiscal year net sales are expected to be lower than the forecasted fiscal year net sales per the latest quantitative test. The performance of these brands is then reviewed by management to determine if the shortfall to forecasted net sales was related to events and circumstances that are expected to be temporary in nature, or if it were caused by more pervasive issue that could serve as an impairment indicator (e.g., loss of key customers, discontinuance of certain product categories within a brand, etc.). We use this risk-based approach to determine which brands we would quantitatively test for impairment, whether as part of fiscal year annual impairment testing or an interim period test.

During the third quarter of 2026, we qualitatively assessed our indefinite-lived intangible assets for impairment and determined that the Earth's Best<sup>®</sup> Organic and soup indefinite-lived tradenames (Cully & Sully<sup>®</sup>, Yorkshire Provender<sup>®</sup>, New Covent Garden<sup>®</sup> soups) indefinite-lived tradenames should be quantitatively tested. The Company's fiscal year 2026 interim impairment testing resulted in the recognition of impairment charges for the Earth's Best<sup>®</sup> Organic indefinite-lived tradenames.

During the three months ended March 31, 2026, as a result of a continued decline in actual and projected net sales driven by challenges related to regaining Earth's Best<sup>®</sup> formula distribution, the Company conducted an interim quantitative impairment test for its Earth's Best<sup>®</sup> Organic indefinite-lived tradename. The Company concluded that the indefinite-lived intangible asset carrying amount exceeded its estimated fair value and recorded a non-cash impairment charge of \$2,038 during the three months ended March 31, 2026, which was recorded within long-lived asset and intangibles impairment on the consolidated statement of operations. The Earth's Best<sup>®</sup> indefinite-lived tradename is part of the North America reportable segment and had a remaining carrying value of \$20,000 as of March 31, 2026.

During the three months ended March 31, 2026, as a result of a decline in projected net sales driven by shifting consumer behavior towards private label soup, the Company conducted an interim quantitative impairment test for its soup indefinite-lived tradenames (Cully & Sully<sup>®</sup>, Yorkshire Provender<sup>®</sup>, and New Covent Garden<sup>®</sup> soups). The Company concluded that the estimated fair value exceeded the carrying amount by 8.0%. The soup indefinite-lived intangible assets are part of the International reportable segment and had a remaining aggregate carrying value of \$23,229 as of March 31, 2026.

During the nine months ended March 31, 2026, the Company conducted an interim quantitative impairment test for its Ella's Kitchen<sup>®</sup> baby and kids foods and Hartley's<sup>®</sup> jelly tradenames and recorded a non-cash impairment charge of \$11,917 for Hartley's<sup>®</sup> jelly indefinite-lived tradename. The estimated fair value of the Ella's Kitchen<sup>®</sup> tradename exceeded its carrying amount by 12.8%. These tradenames were subsequently reclassified to definite-lived and ascribed a useful life of 10 years. Such tradenames are part of the International reportable segment and have remaining carrying values of \$34,246 and \$37,336, respectively, as of March 31, 2026.

### **Recent Accounting Pronouncements**

Refer to Note 2, *Basis of Presentation*, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

### **Seasonality**

Certain of our product lines have seasonal fluctuations. Hot tea and soup sales are stronger in colder months, while sales of snack foods are stronger in the warmer months. As such, our results of operations and our cash flows for any particular quarter are not indicative of the results we expect for the full year, and our historical seasonality may not be indicative of future quarterly results of operations. Historically, net sales and profitability in the first fiscal quarter have typically been the lowest of our four quarters.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

There have been no significant changes in market risk from those addressed in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2025 during the nine months ended March 31, 2026. See the information set forth in Part II, Item 7A, Quantitative and Qualitative Disclosures About Market Risk, of the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2025.

## **Item 4. Controls and Procedures**

### **Evaluation of Disclosure Controls and Procedures**

Our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), with the assistance of other members of management, have performed an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on this evaluation, our CEO and CFO have concluded that, as of March 31, 2026, the Company’s disclosure controls and procedures were not effective due to the material weakness related to our controls to review goodwill and indefinite-lived intangible asset quantitative impairment tests that were performed throughout the prior fiscal year, identified and described in Item 9A of our Annual Report on Form 10-K for the fiscal year ended June 30, 2025.

Notwithstanding the material weakness, and based on the additional analyses and other procedures to ensure that our consolidated financial statements were prepared in accordance with U.S. GAAP, our management believes that the consolidated financial statements included in this Quarterly Report on Form 10-Q fairly present, in all material respects, our financial condition, results of operations and cash flows as of the dates, and for the periods presented, in conformity with U.S. GAAP.

### **Remediation Plan for Material Weaknesses in Internal Control over Financial Reporting**

The Company is in the process of improving its policies and procedures relating to the design and operating effectiveness of controls to review on a timely basis and in sufficient detail the projected financial information and certain key assumptions and underlying calculations used in goodwill and indefinite-lived intangible asset quantitative impairment tests.

Management is taking actions to implement new or enhance existing controls and procedures to ensure proper and timely review of business activities impacting the projected financial information and certain key assumptions and underlying calculations used in preparing goodwill and indefinite-lived intangible asset quantitative impairment tests. The material weaknesses will be considered remediated when the applicable remedial controls operate for a sufficient period of time and management has concluded, through testing, that these controls are operating effectively. We anticipate that the remediation will occur by the end of fiscal 2026. We continue to monitor the design and operation of these remedial measures through the date of this report.

### **Changes in Internal Control Over Financial Reporting**

Other than the actions taken under “Remediation Plan for Material Weaknesses in Internal Control over Financial Reporting” discussed above, there were no changes in our internal controls over financial reporting that occurred during the three months ended March 31, 2026 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II - OTHER INFORMATION

### Item 1. Legal Proceedings

The information called for by this item is incorporated herein by reference to Note 17, *Commitments and Contingencies*, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

### Item 1A. Risk Factors

There have been no material changes from the discussion of the material factors contained in the section entitled “Risk Factors” in the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2025, filed with the SEC on September 15, 2025.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

#### *Issuer Purchases of Equity Securities*

During the three months ended March 31, 2026, there were no shares repurchased under share repurchase programs approved by the Board of Directors.

CERTIFICATION FURNISHED  
PURSUANT TO 18 U.S.C. SECTION 1350,  
AS ADOPTED PURSUANT TO SECTION 906  
OF THE SARBANES-OXLEY ACT OF 2002

I, Lee A. Boyce, Chief Financial Officer of The Hain Celestial Group, Inc. (the "Company"), certify, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, 18 U.S.C. Section 1350, that to my knowledge:

- The Quarterly Report on Form 10-Q of the Company for the quarter ended March 31, 2026 (the "Report") fully complies with the requirements of Section 13(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78m); and
- The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Dated: May 11, 2026
